4000- STUDENT LEARNING STANDARDS AND INSTRUCTIONAL GUIDELINES

The Board of Education is committed to providing every student with an outstanding educational experience that meets the diverse needs of all learners, empowering them to meet the opportunities of the future.

The Board of Education will achieve this by working in partnership with the Superintendent of Schools, district staff, students, families, and the community to ensure that each student acquires the knowledge, skills and core values necessary to achieve their fullest potential and to enrich the local and global community.

To facilitate achievement of the Board's articulated learning standards for all students, the district's administration and staff will be guided by the following:

1. All students will be subject to high academic standards and high academic performance expectations.
2. The district will implement measurable effective instructional strategies for closing the achievement gap among all students.
3. The district will align its core academic subject curricula with the state learning standards and offer appropriate support services to enable all students to succeed.
4. The same core academic subject curricula will be used in all schools district-wide.
5. The district will use multiple general education approaches, including response to intervention strategies in accordance with Commissioner's regulations, to improve the academic performance of all students.
6. Instructional and professional development activities to enhance teacher practice and student learning across the district.
7. Progress monitoring for all students will be in place so that preventative steps can be properly implemented to address student academic support.
8. The district will recruit, hire and retain highly qualified staff.
9. Staff professional development will be designed to enable achievement of the Board's articulated learning objectives and instructional goals.
10. The district will implement a process of ongoing review to identify and address any obstacles to the achievement of the Board's articulated learning standards.

4010- EQUIVALENCE IN INSTRUCTIONAL STAFF AND MATERIALS

In accordance with the federal law, the Board of Education directs that services in Title I schools and programs, when taken as a whole, shall be substantially comparable to services in schools and programs that do not receive Title I funds. This includes curriculum materials, instructional supplies, and personnel (teachers, administrators, and other personnel).

The Superintendent of Schools shall follow the State Education Department guidelines in determining such equivalence on an annual basis, and report to the Board, upon request, on the status of district schools with regards to equivalence. The district shall maintain records, updated biannually, documenting this equivalence.

Complaints regarding the district's implementation of this equivalence requirement shall be addressed in accordance with Board policy 1400, Complaints from the Public.

Cross-ref: 1400, Complaints from the Public

4200- CURRICULUM MANAGEMENT

The Board of Education recognizes its responsibility for the development, assessment and improvement of the educational program of its schools. To this end, the Board is committed to establishing and maintaining a coordinated curriculum management process that:

- Defines how the district's curriculum is developed and approved.
- Ensures that the curriculum is taught and tested.
- Provides for the ongoing review and evaluation of the curriculum.

For purposes of this policy, "curriculum" means a series of planned instruction that is coordinated, articulated and implemented to result in achievement of specific knowledge and skills, and application of such knowledge and skills by all students.

Curriculum Development

The Board views a centralized curriculum articulated among and between grade levels as essential to an effective instructional program designed to meet the learning standards established by the state and the Board.

The Superintendent of Schools, in coordination with the Assistant Superintendent for Instruction, shall be responsible for the development of a written curriculum designed to meet student needs. He/she shall establish procedures for curriculum development that provides for the effective participation of administrators, teaching staff, board members and other relevant stakeholders.

The curriculum shall:

- Comply with state mandates regarding course offerings and essential knowledge and skills.
- Focus on the content standards of each discipline and ensure that what students learn is rigorous, challenging and represents the most important learning for students.
- Provide sufficient flexibility to meet individual student needs at each stage of development.
- Reflect current research, best practices and technological advancements within each discipline.

- Promote congruence among the written, taught and assessed content.

Curriculum Approval

The Superintendent shall present the written curriculum to the Board for its review. The Board will review the curriculum to ensure consistency with Board-adopted learning objectives. In addition, the Board will adopt instructional materials that support the approved curriculum.

Curriculum Implementation

Implementation of the curriculum rests primarily with the teaching staff. In carrying out this responsibility, the teaching staff shall work to ensure continuity between the written, taught and tested curriculum.

The Assistant Superintendent for Instruction is responsible for managing and coordinating the k-12 curriculum. In addition, the Assistant Superintendent for Instruction will work with building principals and curriculum directors to ensure a well-articulated and effective k-12 curriculum is in place across all school buildings.

Building principals in coordination with the Assistant Superintendent for Instruction and curriculum supervisors are responsible for:

- Knowing the curriculum being taught in their buildings or departments.
- Routinely analyzing classroom assessments and student performance to ensure the curriculum is being learned.
- Making routine classroom observations of teachers both formally and informally.
- Working with teachers to develop and enhance curriculum to ensure that the curriculum is dynamic and not static.
- Provide opportunities for teachers to discuss and share ideas and strategies regarding curriculum development.

The Board of Education's goal is for the district curriculum to be communicated to the teaching staff in a written curriculum guide developed annually by the Superintendent. Such guides will provide the necessary information to direct instruction and ensure continuity among and between grade levels. The guides will also include a description of the essential knowledge and skills for the course, instructional philosophy, appropriate sequence, and correlation of major resources. Curriculum guides will be made available to parents and community members upon request to promote understanding of district goals and objectives.

Curriculum Review

The Board recognizes the need for and the value of a systematic, ongoing program of curriculum evaluation that includes collecting and analyzing data about student achievement.

All aspects of the curriculum shall be subjected to critical analysis with the intention to improve students' learning and growth. This analysis is essential to evaluate program effectiveness in each content area and to make judgments about resource allocation. The Superintendent shall develop guidelines to evaluate the instructional program to ensure its continued effectiveness.

4200

With prior Board approval, the Superintendent may conduct pilot programs deemed necessary to the continuing improvement of the instructional program.

The Superintendent shall report his/her findings regarding the effectiveness of the instructional program to the Board periodically, and, if necessary, shall recommend changes to the district's curriculum.

4211.1 DISPLAY OF THE FLAG

The Board of Education believes that the flag of the United States is a symbol of the values of our nation, the ideals embedded in our Constitution and the spirit that should animate our district.

The district shall purchase a United States flag, flagstaff and the necessary appliances for its display upon or near every school building. There shall be a flag on display in every assembly room of every school.

The flag shall be flown at full- or half-staff pursuant to law. In addition, the flag may be flown at half-staff to commemorate the death of a present or former Board member, present employee or student.

Consistent with national and state law and regulations and this policy, the Superintendent of Schools shall develop rules and regulations for the proper custody, care and display of the flag.

Ref: 4 USC §§5-9 (display of the flag)
Education Law §§418; 419; 420 (requirement for the school to purchase,
display and develop rules and regulations for the care and custody of the flag)
Executive Law §§400-403 (rules for display of the flag)
8 NYCRR Part 108 (flag regulations)

Adoption date: 7/2/19

4311.1-R DISPLAY OF THE FLAG REGULATION

Flags Displayed Out-of-Doors and on Movable Hoists Indoors

A United States flag shall be displayed in front of every school building in the district every day that school is in session and at such other times as the Superintendent of Schools shall direct. Unless otherwise stated, the flags shall be flown at full-staff. The flags may also be displayed at night upon special occasions, at the discretion of the Superintendent, when it is desired to produce a patriotic effect.

In addition to days when school is in session, the flags will be displayed on the following days if school is open to the public: New Year's Day, Martin Luther King, Jr. Day, Lincoln's Birthday, Washington's Birthday, Memorial Day, Flag Day, the Fourth of July, Labor Day, September 11th Remembrance Day, POW/MIA Recognition Day, Columbus Day, Veterans Day, Thanksgiving Day, Pearl Harbor Day and Christmas Day. If any of these days (except Flag Day) falls on a Sunday, the flag shall be displayed on the next day. In addition, the flag shall be displayed on each general election day and each day appointed by the President of the United States or by the Governor of New York as a day of general thanksgiving or for displaying the flag.

Flags shall be flown at half-staff on Pearl Harbor Day, on September 11th Remembrance Day, on days commemorating the death of a personage of great importance, and on days designated by the President or the Governor.

Flags on individual buildings will be flown at half-staff for 30 days if a present employee or student in that building dies. The flag shall also be flown at half-staff the day of the funeral of any former employee well-known in the school. This will be at the discretion of the Superintendent.

All flags in the district are to be flown at half-staff when a present Board member dies and are kept at half staff for 30 days. All flags are put at half-staff on the day of the funeral of a former Board member. All flags in the district are flown at half staff on the day of the funeral of a present employee or a present student.

The flag will not be displayed on days when the weather is inclement.

Hoisting of the Flag

The flag shall be hoisted briskly and lowered ceremoniously.

In half staffing the flag, it first should be hoisted to the peak for an instant and then lowered to the half-staff position. The flag shall be again raised to the peak before it is lowered for the day. The flag shall never be put at half-mast in the middle of the day. It must be put at half-mast in the morning only.

Indoor Flags and Those Not on Movable Hoists

There shall be a United States flag in each assembly room of every school in the district. It is the duty of the teacher or other person in charge of each assembly room to ensure that the flag in the room is displayed from a staff standing at the audience's right as they face the stage. If the flag is placed on the platform, it should stand at the right of the speaker as he/she faces the audience and at the audience's left as they face the stage.

4313- RELIGIOUS EXPRESSION IN THE INSTRUCTIONAL PROGRAM

The Board of Education acknowledges the importance of religion to the understanding of society and the richness of the human experience. In approaching the teaching about religion in the school, the district will be guided by three concepts when making decisions about the appropriateness of activities for inclusion in the school program: the activity should have a secular purpose; the activity should neither advance nor inhibit religion; and the activity must not foster an excessive entanglement of "government" with religion.

Nurturing the development of knowledge and respect for the rights of all cultural and religious groups is a continuing goal of the school district. Students, faculty and administration are reminded of the pluralism of religious beliefs and are urged to be conscious of and respect the sensitivity of others.

Opportunities to learn about cultural and religious traditions should be provided within the framework of the curriculum. Information about religious and cultural holidays and traditions focusing on how and when they are celebrated, their origins and histories should be part of this instruction. This educational opportunity should be handled with great care, sensitivity and respect for the feelings and beliefs of individuals.

An environment should be created and encouraged where students of various ethnic backgrounds feel comfortable in sharing comments about their religious and cultural traditions. No student should be singled out to share or participate in such discussions solely on the basis of that student's identification with the cultural/religious heritage being addressed. A student's preference not to share or participate in such discussions should be honored and respected without penalty.

School Activities Related to Religious Holidays or Themes

School activities related to the teaching about religious holidays or themes must be consistent with, representative of, and congruent with the District's curriculum.

In planning school activities related to the teaching about religious holidays or themes, special effort must be made to ensure that the activity is not devotional and that students of all faiths can join without feeling they are betraying their own beliefs.

In planning school activities related to the teaching about religious holidays or themes, age appropriate activities are encouraged within the framework of the curriculum. Teaching about religious and cultural holidays may include such special activities as parties and special foods, if they reinforce educational goals.

Symbols in the Schools

The purpose of using religious symbols should be to teach about religious concepts and traditions, and to convey historical or cultural content, not to promote or celebrate religious concepts, events or holidays.

Music in the Schools

The purpose of using religious music should be to teach musical concepts, to convey historical and cultural content, or to create aesthetic experiences in a setting which emphasizes artistic expression and educational value, not to promote or to celebrate a religious faith.

District Calendar

The days on which members of a religious group may be absent to observe a religious holiday (legal absence) will be noted on the school planning calendar and the district calendar distributed to parents/guardians. Out of respect for a student's observance of these holidays, teachers will be sensitive to the needs of the student by allowing them to make up all class work, homework, and tests without penalty. Parents/guardians are encouraged to notify the school prior to the absence in order to assist the staff in instructional planning and in meeting the needs of the student.

Curriculum Areas in Conflict with Religious Beliefs

Students shall be given the option to be excused from participating in those parts of an activity, program, or area of instruction involving a religious theme which conflicts with their own religious beliefs or that of their parents/guardians in accordance with applicable law and regulations. Alternatives may be provided that are of comparable instructional value.

Implementation

Administrative regulations will be developed to implement the terms of this policy. Further, the district shall vigorously publicize and disseminate this policy and accompanying regulations in order to ensure community, faculty, student, and parental/guardian awareness.

4315.1 -AIDS INSTRUCTION

The district will provide age appropriate classroom instruction in compliance with commissioner's regulations, for all students K-12 concerning Acquired Immune Deficiency Syndrome (AIDS). Instruction will be provided as part of the sequential and comprehensive health program and shall include the following information:

1. the nature of the disease;
2. methods of transmission of the disease; and
3. methods of prevention of the disease stressing abstinence as the most effective and appropriate protection against AIDS;
4. methods of obtaining and evaluating information.

A student shall be excused from that segment of AIDS instruction regarding methods of prevention of the disease if his/her parent/guardian files a request with the Building Principal. The request must give assurance that such instruction will be given at home.

The Board of Education shall be responsible for determining the content of the district's AIDS curriculum, approving its implementation and evaluating the AIDS instructional program. In addition, the Board will ensure appropriate training and curriculum materials are provided for the instructional staff providing AIDS instruction and to parents who request such materials.

The Board shall establish an advisory council which shall be responsible for making recommendations on content, implementation, and evaluation of the AIDS instructional program. The advisory council may consist of Board members, appropriate school personnel, parents or community representatives, including representatives from religious organizations.

**4321- PROGRAMS FOR STUDENTS WITH DISABILITIES
UNDER THE IDEA AND NEW YORK'S EDUCATION LAW ARTICLE 89**

The Board of Education shall make available a free appropriate public education to all students with disabilities who reside within its district and are eligible for special education and related services under the Individuals with Disabilities Education Act and Article 89 of New York's Education Law, and their implementing regulations. Special education and related services will be provided to resident eligible students with disabilities in conformity with their individualized education program (IEP) and in the least restrictive environment appropriate to meet their individual educational needs. Special education services or programs will be designed to enable a student with disabilities to be involved in and progress in the general education curriculum, to the extent appropriate to his/her needs.

The Board also shall make available special education and related services to eligible students with disabilities parentally placed in a nonpublic school located within the district, regardless of whether they are residents of the district. However, this obligation does not extend to resident students with disabilities who are placed by their parents in a nonpublic school within district boundaries because of a disagreement between the parents and the school district over the provision of a free appropriate public education. Nonpublic school students with disabilities who are not district residents but who reside within New York State will be provided programs and services in accordance with their individualized education services program (IESP). Nonpublic school students with disabilities who reside out-of-state will be provided services in accordance with their services plan (SP). (Refer to policy 4321.10, Programs and Services for Parentally-placed Nonpublic School Students with Disabilities under the IDEA and New York's Education Law Article 89 for more guidance on this topic).

In addition, to the maximum extent appropriate to their individual needs, eligible students with disabilities residing within the district and attending the district's public schools will be entitled to participate in school district academic, co-curricular and extracurricular activities available to all other students enrolled in the district's public schools. Such co-curricular and extracurricular activities may include athletics, transportation, recreational activities, school-sponsored special interest groups or clubs, and referrals to agencies that provide assistance to individuals with disabilities and the employment of students (including both employment by the school district and assistance in making outside employment available).

In providing a free appropriate public education to students with disabilities eligible under the IDEA and Article 89, the Board will afford the students and their parents the procedural safeguard rights they are entitled to under applicable law and regulations. The Board also will provide them with notice of such rights as required by law and regulation, using the form prescribed by the commissioner of education.

For purposes of this policy and others related to the provision of services to eligible students with disabilities, and consistent with applicable law and regulation, the word parent means a birth or adoptive parent, a legally appointed guardian generally authorized to act as the child's parent or authorized to make educational decisions for the child; a person in parental relationship to the child as defined in section 3212 of the Education Law; an individual designated as a person in parental relation pursuant to title 15-A of the General Obligations Law, including an individual so designated who is acting in the place of a birth or adoptive parent (including a grandparent, stepparent, or other relative with whom the child resides; or a surrogate parent who has been appointed in accordance with commissioner's regulations.

Eligible students with disabilities will be entitled to special education and related services until the end of the school year in which they turn 21 or until they receive a local high school or Regents diploma.

Students with disabilities may not be required to take medication as a condition for receiving a free appropriate public education.

To ensure the provision of a free appropriate public education to all eligible students with disabilities:

1. The Board will adopt and maintain a district special education services plan in conformance with Commissioner's Regulations (8NYCRR 200.2(c)). The plan will be available for public inspection and review by the Commissioner of Education.
2. School district staff will take steps to locate, identify, evaluate and maintain information about all children with disabilities within the district, including homeless children and children who are wards of the state, and children attending nonpublic school within the district (including religious schools), who are in need of special education.
3. The district will establish a plan and practice for implementing school-wide approaches and interventions in order to remediate a student's performance prior to referral for special education services. The district will provide general education support services, instructional modifications, and/or alternative program options to address a student's performance before referring the student to the Committee on Special Education (CSE). The Child Study Team (CST) will develop, implement and evaluate pre-referral intervention strategies (4321.2, School-wide Pre-referral Approaches and Interventions).

4. School district staff will initiate a request for evaluation of a student who has not made adequate progress after an appropriate period of time when provided instruction under a response to intervention program. In making the request the staff person will describe in writing intervention services, programs and methodologies used to remediate the student's performance prior to referral. In addition, the extent of parental contact will be described as well.
5. The Board will appoint a committee on special education (CSE), and, as appropriate, CSE subcommittees, to assure the timely identification, evaluation and placement of eligible students with disabilities.
6. The Board will arrange for special education programs and services based upon the recommendation of the CSE or CSE subcommittee.
7. The Superintendent shall establish a plan for the recruitment, hiring and retention of staff appropriately and adequately prepared to meet the needs of students with disabilities including, but not limited to, highly qualified special education teachers.
8. The Superintendent shall establish a comprehensive professional development plan designed to ensure that personnel necessary to carry out IDEA and Article 89 possess the skills and knowledge required to meet the needs of students with disabilities.
9. The Superintendent will establish a process for ensuring that district staff understand the right of students with disabilities to access and participate in the same academic, co-curricular and extracurricular programs and activities as all other students enrolled in the district's public schools, to the maximum extent appropriate to their individual needs.

Locate and Identify Students with Disabilities

The district will conduct an annual census to locate and identify all students with disabilities who reside in the district, and establish a register of such students who are entitled to attend the public schools of the district during the next school year, including students with disabilities who are homeless or wards of the State. The census shall be conducted, and the registry maintained, in accordance with the requirements established in Commissioner's regulations.

The Superintendent will determine what other activities might be appropriate to help locate and identify students with disabilities. These may include, but are not limited to, the mailing of letters to all district residents regarding the availability of special education programs and services and their right to access such services, and/or the publication of a similar notice in school newsletters and other publications.

(Refer to policy 4321.10, Programs and Services for Parentally-placed Nonpublic School Students with Disabilities under the IDEA and New York's Education Law Article 89, for more information regarding how to locate and identify nonpublic school students with disabilities).

Evaluation of Students with Disabilities

To initially determine a student's eligibility for a free appropriate public education under the IDEA and Article 89, the district will conduct a full evaluation of the student in accordance within legally prescribed timelines. As set forth in Commissioner's regulations, the initial evaluation will include, at least, a physical examination, an individual psychological evaluation unless the school psychologist determines it unnecessary, a social history, an observation of the student in the student's learning environment to document the student's academic performance and behavior in the areas of difficulty, and other appropriate assessments or evaluations (including a functional behavioral assessment for a student whose behavior impedes his or her learning or that of others) to ascertain the physical, mental, behavioral and emotional factors that contribute to the suspected disabilities.

Once a student has been determined eligible to receive a free appropriate public education, the district will reevaluate the student with a disability whenever the student's parent requests a reevaluation, and when the district determines the educational and related services needs (including improved academic achievement and functional performance) of the child warrant a reevaluation. However, a reevaluation must take place at least once every three years, unless the student's parent and the district agree it is unnecessary.

Parental Consent for Student Evaluations

Before conducting any type of evaluation, district staff will take steps to obtain written informed consent from a student's parent, as required by applicable law and regulations. They also will keep a detailed record of those attempts and their results, including phone calls and correspondence, visits to the parent's home and any responses received.

1. If a parent refuses to give consent for an initial evaluation, or fails to respond to such a request, the parent will be given an opportunity to attend an informal conference and ask questions about the proposed evaluation. Unless the referral for evaluation is withdrawn, if the parent continues to withhold consent, the Board will commence due process proceedings to conduct an initial evaluation without parental consent within the timelines established in Commissioner's regulations.
2. If a parent refuses to give consent for a reevaluation, or fails to respond to such a request, district staff will proceed with the reevaluation without parental consent if it has engaged in documented reasonable efforts to obtain such consent and the parent has failed to respond. If the district cannot document its efforts to obtain consent, the Board will commence due process proceedings to conduct a reevaluation without parental consent.

3. If district staff is unable to obtain consent for the initial evaluation or reevaluation of a home schooled or a parentally-placed nonpublic school student, the Board will not commence due process proceedings to conduct the evaluation without parental consent and will consider the student as not eligible for special education.

Conduct of Evaluations

In conducting evaluations of students with disabilities, the district will use a variety of assessment tools and strategies, including parent-provided information, to gather relevant functional, developmental, and academic information for determining a student's eligibility for special education and related services, and the content of the student's individualized education program or individualized education services program or services plan in the case of nonpublic school students with disabilities (including information related to enabling the student to be involved in and progress in the general education curriculum).

The district also will assess a student in all areas of suspected disability, and the assessment and other evaluation used will not be discriminatory on a racial or cultural basis. In addition, students will be assessed in the language and form most likely to yield accurate information on what the student actually knows and can do academically, developmentally, and functionally, unless it is not feasible to do so.

In the case of students suspected of having a specific learning disability, the district will follow the procedures established in commissioner's regulations.

The district will notify a student's parent of any determination that no additional data is needed and the reasons for such a determination. It will also inform the parent of his or her right to request an assessment, notwithstanding that determination.

Eligibility Determination

The CSE or CSE subcommittee will determine whether a student is eligible for special education and related services under the IDEA and Article 89, as well as the student's educational needs.

The CSE or CSE subcommittee may not determine that a student is eligible for special education and related services if the determining factor is lack of appropriate instruction in the essential components of reading, including phonemic awareness, phonics, vocabulary development, reading fluency (including oral reading skills), and reading comprehension strategies; or lack of appropriate instruction in math; or limited English proficiency.

Committee on Special Education

The members of the CSE and CSE subcommittees will include those individuals identified in applicable law and regulations, and their attendance at CSE and CSE subcommittee meetings will be required except as otherwise provided in law and regulations.

The parent of a student with disabilities is one of the mandated CSE and CSE subcommittee members and as such has a right to participate in CSE and CSE subcommittee meetings concerning the identification, evaluation, educational placement, and the provision of a free appropriate public education to their child. District staff will take steps to ensure the parent's participation, in accordance with the following:

1. CSE and CSE subcommittee meetings will be scheduled at a time and place that is mutually agreeable to the parent and the district.
2. The parent will be given at least five days notice of the time and place of a CSE or CSE subcommittee meeting, except as otherwise provided in law and regulation, along with notice of the purpose of the meeting, those who will attend (including name and title), and the parent's right to be accompanied to the meeting by person(s) the parent considers to have knowledge and special expertise about their child.
3. The parent and the district may agree to use alternative means of participation at CSE meetings, such as videoconferences or telephone conference calls.
4. District staff will take any action necessary to ensure that the parent understands the proceedings at CSE meetings, including arranging for an interpreter for deaf parents or parents whose native language is other than English.

The CSE or CSE subcommittee may meet without a student's parent only if district staff has been unable to obtain either parent's participation, and has a record of its attempts to arrange a mutually agreed upon time and place. Similarly, the CSE or CSE subcommittee may make a decision without the involvement of the student's parent only if district staff has been unable to obtain parental participation, even through the use of alternative means of participation, and has a record of its attempts to ensure parental involvement.

Provision of Services

The Board will arrange for appropriate special education and related services recommended by the CSE or CSE subcommittee within 60 school days of the district's receipt of parental consent to evaluate a student not previously identified as a student with a disability, or within 60 school days of referral for review of a student with a disability, except as otherwise provided in law and regulations.

All staff responsible for the implementation of a student's individualized education program, or an individualized education services program or services plan in the case of parentally placed nonpublic school students with disabilities, will be provided information regarding those responsibilities (Refer to policy 4321.5 for more information on this topic).

Parental Consent for the Provision of Services

The Board acknowledges that parental consent for initial evaluation does not constitute consent for placement for the provision of special education and related services. Therefore, district staff will take steps to obtain written informed consent for the initial provision of special education and related services to an eligible student. The Board will be precluded by applicable law and regulations from commencing due process proceedings to override the parent's refusal to provide such consent or override the parent's failure to respond to such a request.

Transition Service and Diploma/Credential Options

In accordance with law and regulation, the Board will ensure the provision of transition services, which are a coordinated set of activities for students with disabilities that facilitates movement from school to post-school activities, which may include but are not limited to post-secondary education, vocational education, integrated employment, continuing and adult education, adult services, independent living or community participation. At age 15, or younger if appropriate, the student's IEP will include a statement of transition service needs and will include undertaking activities in the following areas:

- Instruction
- Related services
- Community experiences
- The development of employment and other post-school adult living objectives; and
- When appropriate, acquisition of daily living skills and provision of a functional vocational evaluation.

In developing the plan for transition services, students and parents will be made aware of the range of diploma and credential options available and the requirements associated with each option.

(X) Required Local Notice

4321.1 -PROVISION OF SPECIAL EDUCATION SERVICES IN THE LEAST RESTRICTIVE ENVIRONMENT

The Board of Education recognizes its responsibility to ensure that students with disabilities eligible for special education programs and services under the IDEA and Article 89 of New York's Education Law receive those services in the least restrictive environment appropriate to meet their individual educational needs.

Therefore, the district will not place students with disabilities in special classes or separate schools, or otherwise remove them from the regular educational environment unless the nature or severity of their disability is such that their education cannot be achieved satisfactorily in regular classes, even with the use of supplementary aids and services. In addition, the district will provide special services or programs to enable students with disabilities to be involved in and progress in the general curriculum, to the extent appropriate to their needs.

To fulfill its responsibility to educate students with disabilities in the least restrictive environment, the district will implement the provisions of section 200.6 of commissioner's regulations.

Furthermore, and pursuant to those provisions, students with disabilities placed together for purposes of receiving special education will be grouped by similarity of individual needs including their range of academic achievement, functional performance and learning characteristics; social and physical development, and management needs.

The Superintendent will establish a process for ensuring that the CSE or CSE subcommittee Chairperson, as appropriate, obtains an up-to-date copy of those provisions at the beginning of each school year, and copies of any amendments that become effective during the school year.

The Board also recognizes that the least restrictive environment requirements established by applicable law and regulations also extend to non-academic settings. Therefore, the district will provide students with disabilities the opportunity to participate with non-disabled students in school-sponsored co-curricular and extracurricular activities, to the maximum extent appropriate to each individual student's needs. The district also will provide students with disabilities with supplementary aids and services the CSE or CSE subcommittee, as applicable, determines to be appropriate and necessary for the students to participate in such activities.

(X) Required Local Notice**4321.2 SCHOOL-WIDE PRE-REFERRAL APPROACHES AND INTERVENTIONS**

The Board of Education recognizes that the provision of academic and behavioral supports and targeted interventions for students who are not making academic progress at expected levels in the general curriculum may improve a student's performance and help avert the need for referral for possible classification as a student with a disability. Therefore, the district will implement on a school-wide basis practices appropriate to enable all the district's students to succeed in the general education environment.

The Superintendent will identify and take steps to implement a variety of practices appropriate to comply with this policy. Consistent with applicable law and regulation, those practices may include, for example:

1. Providing early intervention services with funds available under the IDEA, which may be coordinated with similar activities conducted under the Elementary and Secondary Education Act. Such services would be made available to students not currently identified as needing special education and related services, but who need additional support to succeed in a general education setting. This may include professional development that enables teachers and other staff to deliver scientifically based academic instruction and behavioral interventions, such as scientifically based literacy instruction and, where appropriate, instruction on the use of adaptive instructional software. It also may include educational and behavioral evaluations, services and supports.
2. Implementation of a response to intervention (RTI) program, in accordance with 4321.2-R, that includes the minimum requirements established by commissioner's regulations, and allows teachers and other staff to determine whether a student responds to scientific, research-based instruction or requires interventions beyond those provided to all students in the general education classroom.
3. Implementation of a positive behavioral intervention and support (PBIS) system that reduces school and classroom behavioral problems, and creates and maintains a safe and positive learning environment by promoting positive behavior in all students .

District implementation of any of the above practices will not impede or delay the appropriate evaluation of a student suspected of having a disability, and the student's right to a free appropriate public education.

34 CFR §§300.226; 300.307(a)(2)
8 NYCRR §§100.2(ii); 200.2(b)(7)

Adoption date: 7/2/19

**4321.2R- SCHOOL-WIDE PRE-REFERRAL APPROACHES AND
INTERVENTIONS REGULATION:
RESPONSE TO INTERVENTION PROCESS**

In accordance with Commissioner's Regulations, the district has established administrative practices and procedures for implementing District-wide initiatives that address a Response to Intervention (RTI) process applicable to all students. For students suspected of having a potential learning disability, the District will provide appropriate RTI services pursuant to Commissioner's Regulations prior to a referral to the Committee on Special Education (CSE) for evaluation.

Minimum Requirements of District's RTI Program

The district's RTI process shall include the following minimum requirements:

1. Scientific, research-based instruction in reading and mathematics provided to all students in the general education class by qualified personnel. Instruction in reading, per Commissioner's Regulations, shall mean scientific, research-based reading programs that include explicit and systematic instruction in phonemic awareness, phonics vocabulary development, reading fluency (including oral reading skills) and reading comprehension strategies;
2. Screenings shall be provided to all students in the class to identify those students who are not making academic progress at expected rates. Students in grades K - 4 will receive a minimum of 3 screenings per year.
3. Scientific, research-based instruction matched to student need with increasingly intensive levels of targeted interventions for those students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards;
4. Repeated assessments of student achievement, which should include curriculum-based measures to determine if interventions are resulting in student progress toward age or grade level standards;
5. The application of information about the student's response to intervention to make educational decisions about changes in goals [i.e., goals for all students, not just Individualized Education Program (IEP) goals], instruction and/or services and the decision to make a referral for special education programs and/or services; and
6. Written notification to the parents when the student requires an intervention beyond that provided to all students in the general education classroom that provides information about the following:
 - a. The amount and nature of student performance data that will be collected and the general education services that will be provided as enumerated in Commissioner's Regulations;
 - b. Strategies for increasing the student's rate of learning; and
 - c. The parents' right to request an evaluation for special education programs and/or services.

4321.2-R

The analysis of Tier One student performance data will be used to identify those students who need additional intervention at the Tier Two Level of instruction.

Tier Two Instruction

In general, Tier Two instruction will consist of small group, targeted interventions for those students identified as being "at risk" who fail to make adequate progress in the general education classroom. Tier Two instruction will include programs and intervention strategies designed to supplement Tier One interventions provided to all students in the general education setting.

Tier Two instruction may be provided by specialized staff such as, reading and math teachers, tutors, speech therapists, school psychologists and/or school counselors as determined by the Instructional Support Team.

At the conclusion of Tier Two instruction, the Instructional Support Team will review the student's progress and make a determination as to whether Tier Two interventions should be maintained; the student will be returned to the general education classroom if satisfactory progress is shown or otherwise referred for Tier Three instruction.

Tier Three Instruction

Tier Three instruction is the provision of more intensive instructional interventions, tailored to the needs of the individual student and is provided to those students who do not achieve adequate progress after receiving interventions at the Tier Two level. Tier Three instruction may include longer periods of intervention program and services than those provided in the first two Tiers based upon the significant needs of the student.

Tier Three instruction will be provided by those specialists, as determined by the Instructional Support Team, best qualified to address the individual student's targeted area(s) of need. If deemed appropriate by the Team, and in accordance with applicable law and regulation, a referral of the student may be made to the CSE.

Progress monitoring on a continuous basis is an integral part of Tier Three; and the student's response to the intervention process will determine the need/level of further intervention services and/or educational placement.

Amount and Nature of Student Performance Data to be Collected

The Instructional Support Team will determine the amount and nature of student performance data that will be collected to assess, on an ongoing basis, student performance results and address ongoing academic needs as warranted. Such data collection will reflect the Tier Level of intervention provided to the student.

Student performance data will also be used to review the district's RTI program and make modifications to the program as deemed necessary.

Manner and Frequency for Progress Monitoring

The Instructional Support Team shall monitor the progress of those students receiving intervention services beyond that provided to all students in the general education classroom. The Team shall meet with the student's teacher(s) and will determine if further adjustments need to be made to the student's current instructional program and/or a change made to the Tier Level of intervention provided. Monitoring of student progress shall be an ongoing part of the RTI program from the initial screening to completion of the RTI process as applicable: Parent(s)/guardian(s) may also request that the progress of their child be reviewed by the Instructional Support Team.

Fidelity measures (e.g., an observational checklist of designated teaching behaviors in accordance with the RTI process being implemented) will also be completed by Team members to assess whether the intervention was implemented as intended and uniformly applied. Clear benchmarks will be established for student performance and performance charts will be plotted at the completion of the instructional period/intervention process.

Staff Development

All staff members involved in the development, provision and/or assessment of the district's RTI program including both general education and special education instructional personnel, shall receive appropriate training necessary to implement the district's RTI program. Staff development will include the criteria for determining the levels of intervention provided to students, the types of interventions, collection of student performance data and the manner and frequency for monitoring progress.

Parent /Guardian Notification

Written notification shall be provided to parent(s)/guardian(s) when their child requires an intervention beyond that provided to all students in the general education classroom. Such written notice shall include the following information:

- a) The amount and nature of student performance data that will be collected and the general education services that will be provided as part of the RTI process;
- b) Strategies for increasing the child's rate of learning; and
- c) The parent(s)/guardian(s)' right to request an evaluation for special education programs and/or services.

Adoption date: 7/2/19

(X) Required Local Notice**4321.3 ALLOCATION OF SPACE FOR SPECIAL EDUCATION PROGRAMS**

The Board of Education recognizes its responsibility to ensure that appropriate space is available for:

1. Special programs and services provided to meet the needs of students and preschool students with disabilities both within its own facilities, and in programs provided by the board of cooperative educational services (BOCES) and attended by district residents; and
2. Serving students with disabilities in settings with non-disabled peers, as well.

The district will address such space allocation needs as part of its annual budget cycle, during the annual or any more frequent re-evaluation of its long-range educational facilities plan, and as part of the district's special education services plan.

Through the Superintendent, the district also will share with the BOCES District Superintendent information relevant for the BOCES to determine the regional space needs for serving the district's resident students and preschool students with disabilities.

As part of the process for ensuring the allocation of appropriate space for special education programs and services and serving students with disabilities in settings with non-disabled peers, the Superintendent, in consultation with appropriate school personnel will, at a minimum:

1. Periodically gather information regarding the number of students and preschool students with disabilities presently participating and anticipated to continue to participate in the district's special education programs and services, the type of programming they presently receive and may receive in the future, as well as the setting in which those services are and/or will be provided.
2. Review the results of the district's latest census, and other district child find efforts, including child find activities conducted with respect to parentally-placed nonpublic school students with disabilities.
3. Anticipate any projected increase in the number of students and preschool students with disabilities the district will be responsible for providing special education programs and services to, the anticipated type of services they will be receiving and the settings in which those services will be provided.
4. Based on the above information, review current space capacity, and identify any additional space requirements to meet both current and future needs.

4321.4 INDEPENDENT EDUCATIONAL EVALUATIONS

The Board of Education recognizes the right of parents or guardians of a student who has or is thought to have a disability to receive an independent evaluation at public expense if they disagree with the evaluation obtained by the Committee on Special Education (CSE) or the Committee on Preschool Special Education (CPSE).

The independent examination shall be conducted by a qualified examiner who is not employed by the school district responsible for the child's education. Upon request, parents will be provided with a list of public and private agencies and professional resources where independent evaluations may be obtained. These publicly-funded independent evaluations shall be limited to the same geographic and fiscal limitations as used by the district when it initiates an evaluation.

The district has the right to initiate an impartial hearing to demonstrate that its evaluation is appropriate. If the hearing officer determines that the district's evaluation was appropriate, a parent or guardian is not entitled to reimbursement at public expense.

The Board directs the Superintendent of Schools to develop regulations establishing maximum allowable fees for specific tests, the geographic area in which such evaluations may take place, and minimum qualifications of the professionals who administer and interpret various tests.

4321.5 -CONFIDENTIALITY AND ACCESS TO INDIVIDUALIZED EDUCATION PROGRAMS, INDIVIDUALIZED EDUCATION SERVICES PROGRAMS AND SERVICE PLANS

The Board of Education recognizes the importance of ensuring the confidentiality of personally identifiable data pertaining to a student with a disability. Personally identifiable data will not be disclosed by any school district employee or member of a CSE/CPSE to any person (other than the parent of such student), organization or agency unless the parent or guardian of the child provides written consent; there is a valid court order for such information; or disclosure is permitted by law.

Personally identifiable data is defined in the policy on Student Records, 5500.

The Board of Education, while acknowledging the confidentiality requirement, believes that in order for each student with disabilities to receive the full benefit of his/her Individualized Education Program (IEP), Individualized Education Services Program (IESP) or Service Plan (SP), individuals responsible for implementing the program or plan must, prior to the implementation, fully understand the scope of their responsibility and the specific accommodations, modifications and supports to be provided.

To this end, this policy establishes procedures to ensure that any person having both direct contact with a student with an IEP, IESP or SP and a responsibility to provide a service, accommodation or program modification for the student in accordance with that student's IEP, IESP or SP shall be informed of his/her responsibilities under the IEP, and shall receive or have access to a copy of the student's IEP, IESP or SP as specified below.

I. IEP, IESP or SP Copies

At a CSE, CSE Subcommittee or CPSE meeting for each student, a determination will be made as to which general education teachers, special education teachers, related service providers and other service providers have responsibility to implement the recommendations on the student's IEP, IESP or SP. "Other service provider" means a representative of another public school district, charter school, BOCES program, child care institution school, Special Act school district, State-supported school, approved private in-state or out-of-state school and an approved preschool provider where the student receives or will receive IEP, IESP or SP services.

The CSE, CSE Subcommittee and CPSE Chairpersons shall ensure that a paper or electronic copy of each student's IEP, IESP or SP is provided to each regular education teacher, special education teacher, related service provider and/or other service provider who is responsible for implementation of the program or plan. These individuals responsible for implementing an IEP, IESP or SP shall, in turn, ensure that all paraprofessionals (teacher aides and teacher assistants) and other providers responsible for assisting in implementation are given the opportunity to review their copy of the IEP, IESP or SP prior to program implementation as well as have ongoing access to such copy.

II. Notification of Responsibilities

In addition to disseminating copies of a student's IEP, IESP or SP, CSE, CSE Subcommittee and CPSE Chairpersons must designate one or more professional employees of the district with knowledge of the student's disability and program to inform each regular education teacher, special education teacher, related service provider, other service provider, paraprofessional, and other provider and support staff person of his or her responsibility to provide specific accommodations, program modifications, supports and/or services for the student in accordance with the IEP, IESP or SP. In selecting the professional staff person(s), the chairperson could select him/herself for this responsibility, another administrator, or a teacher, related service provider or other professional, as appropriate.

III. Confidentiality

All copies of a student's IEP, IESP or SP provided or made accessible under this policy must remain confidential, and shall not be re-disclosed to any other person, except in accordance with the Individuals with Disabilities Education Act (IDEA) and the Family Educational Rights and Privacy Act (FERPA). To ensure such confidentiality, the CSE and CPSE Chairpersons shall include with each IEP, IESP or SP copy provided or made accessible under this policy, a copy of the Board's policy on student records (Policy 5500). All IEP, IESP or SP copies must remain in a secure location on school grounds at all times. If IEP copies are transmitted and/or provided electronically, security systems (e.g., password protect a file or folder) must be implemented to prevent unauthorized internal and external access to the student's IEP, IESP or SP.

IV. Documentation

The designated professional employee(s) defined in section II above shall obtain the signature of each person covered by this policy, indicating that he or she:

1. has received either a copy of the student's IEP, IESP or SP or the opportunity to review the IEP, IESP or SP prior to its implementation, as required under state law and regulation;
2. has been informed of their responsibilities for implementation;
3. has knowledge of where the IEP, IESP or SP is to be maintained; and
4. has an understanding of the confidentiality requirements.

(X) Required Local Notice

4321.6 - AVAILABILITY OF ALTERNATIVE FORMAT INSTRUCTIONAL MATERIALS FOR STUDENTS WITH DISABILITIES

The Board of Education recognizes its responsibility to ensure that all the instructional materials used in the district's schools are made available in a usable alternative format for students with disabilities in accordance with their individual educational needs and course selection at the same time as those materials are available to non-disabled students. In accordance with applicable law and regulations, any such alternative format procured by the district will meet the National Instructional Materials Accessibility Standard.

For purposes of this policy, alternative format will mean any medium or format for the presentation of instructional materials, other than a traditional print textbook, that is needed as an accommodation for a student with a disability enrolled in the school district, including but not limited to Braille, large print, open and closed captioned, audio, or an electronic file. An electronic file must be compatible with at least one alternative format conversion software program.

The Superintendent will develop a plan to ensure the availability of alternative format materials in accordance with the timeliness requirements of this policy. Such a plan will provide for:

1. Preference to vendors who agree to provide instructional materials in alternative formats, and to reflect this requirement in the bidding specifications used for the procurement of instructional materials. The same preference will be given to vendors of instructional materials ordered for the school library.
2. Consultation with appropriate school personnel regarding how students will access electronic files. The district's technology staff will be notified of any need to convert electronic files into an accessible format such as Braille, large print, audio, or alternative display.
3. The availability of hardware and/or software a student with disabilities in need of alternative format materials might require to access the instructional material.
4. The yearly review of the district's ordering timelines for the purchase of instructional materials to ensure sufficient lead time for obtaining needed alternative format materials.
5. Notification to appropriate school personnel by the CSE, CSE subcommittee, CPSE and Section 504 Committee Chairperson whenever it is determined that a student needs instructional materials in alternative format. Such notice also will identify the particular alternative format needed, and any assistive technology devices or services the student might need to access the alternative format materials.

6. Notification by classroom teachers of the books they will be using in class and any list of required readings with sufficient lead time in anticipation of the district's timelines for the purchase of instructional materials.
7. Consultation with the school librarian to make sure that specific library resources required by a student in need of alternative format materials to participate and progress in his or her selected courses are made available to the student in an accessible format.
8. Timely request of state assessments in alternative format.

Adoption date: 7/2/19

(X) Required**() Local****() Notice**

4321.7 DISTRICTWIDE AND STATEWIDE ASSESSMENTS OF STUDENTS WITH DISABILITIES

The Board of Education recognizes the importance of offering access and appropriate testing accommodations to eligible students so that they can participate in assessment programs on an equal basis with their nondisabled peers. Two elements that contribute to an effective assessment program are proper use of accommodations and use of universal design principles in developing and administering tests.

Testing Accommodations

Testing accommodations provide an opportunity for students with disabilities to:

- Participate in the instructional and assessment program;
- Demonstrate their strengths, knowledge and skills without being restricted by their disability; and
- Provide an accurate measure of the standards being assessed so that appropriate instruction and services can be provided.

Testing accommodations are changes made in the administration of the test in order to remove obstacles to the test-taking process that are presented by the disability without changing the constructs being tested. Examples of testing accommodations are: flexibility in scheduling/timing; flexibility in the setting for the administration of the test; changes in the method of presentation and changes in the method of response. Testing accommodations are neither intended nor permitted to: alter the construct being measured or invalidate the results, provide an unfair advantage for students with disabilities over students taking the test under standard conditions or substitute for knowledge or abilities that the student has not attained.

The Committee on Special Education, the Subcommittee on Special Education or the Committee on Preschool Special Education is responsible for recommending the appropriate test accommodations and including those recommendations on the student's Individualized Education Program (IEP), Individualized Education Services Program (IESP) or Service Plan (SP). If it is determined that a student should participate in alternative assessments instead of the standard statewide or district-wide tests, the CSE must indicate the reasons for doing so on the IEP, IESP or SP. The Director of PPS will include the appropriate test accommodations as part of the 504 Plan.

The recommendations will be reviewed annually by the CSE, CSE subcommittee, CPSE or 504 team. The Board acknowledges the importance of integrating the assessment program with the instructional program and, to that end, encourages effective communication among district staff so that implementation is consistent and fair. The goal is to provide effective assessments that allow students to benefit from their educational program.

In some situations, a building principal may authorize the use of testing accommodations in accordance with this policy. Those instances are limited to cases where a regular education student incurs a disability, such as, but not limited to, a broken arm, without sufficient time for the CSE, CPSE and/or Section 504 Committee to make a recommendation prior to a test. They do not include cases where the student is already being evaluated to determine his or her eligibility for status as a student with a disability. In exercising this authority, the building principal will rely on his or her professional judgment. He or she also may confer with CSE, CPSE and/or Section 504 Committee members.

Universal Design Principles in District-wide Assessments

The Board of Education recognizes the benefits of using the principles of universal design to further the goal of ensuring equal access to district-wide assessments and to ensure the most accurate measure of the performance of all students. The Board directs the Superintendent, in consultation with appropriate school staff, to examine how universal design principles can be incorporated into the district's assessment program, and to facilitate its use to the extent feasible. Any steps taken in this regard will be consistent with this policy and applicable State Education Department policy and/or guidance on the use of universal design principles.

At a minimum, the Superintendent will explore how district assessments can be:

1. Made more usable by students with diverse abilities.
2. Designed to better accommodate a wide range of individual preferences and abilities.
3. Made more understandable.
4. Made to communicate necessary information to students more effectively.
5. Designed to minimize adverse consequences of accidental or unintended actions.
6. Used more efficiently and comfortably and with a minimum of student fatigue.

Notice

4321.8 IMPARTIAL HEARING OFFICER APPOINTMENT AND COMPENSATION

The Board of Education will appoint impartial hearing officers (IHO), as needed, to hear complaints regarding the identification, evaluation, or placement of students with disabilities, or the provision of a free appropriate public education to such a student in accordance with the rotational selection process and other applicable procedures described in Commissioner's regulations.

Selection

The updated list of certified IHOs for this county promulgated by the New York State Education Department will be used in connection with requests for impartial hearings. The list shall also include the names of those other certified IHOs whose names appear on the state list and who have indicated to the district their interest in serving as an IHO in the district.

Upon receipt of a request for an impartial hearing, the rotational selection process for the IHO shall be initiated immediately and always within two (2) business days after receipt by the district of such written request. Should an IHO decline appointment, or if within 24 hours the IHO fails to respond or is unreachable after reasonable efforts by the District Clerk or designee, such efforts will be documented through independently verifiable efforts. The district representative shall then proceed through the list to determine availability of the next successive IHO.

The District Clerk or other person so designated, under the direction of the Board President, shall initiate the selection process by contacting the impartial hearing officer whose name first appears after the impartial hearing officer who last served. The District Clerk or designee shall canvass the list in alphabetical order as prescribed by the Regulations of the Commissioner of Education until an appointment is accepted. Pursuant to the Regulations of the Commissioner of Education, if an impartial hearing is currently pending for the same student when a new hearing request is received, the district will appoint the same IHO, if available, who will determine whether or not to consolidate the hearings. Additionally, if the new hearing request concerns an issue which had been previously withdrawn in the 12 months prior, the district shall appoint the same IHO, if available.

An IHO on the district's rotational list may not accept appointment unless he or she is available to:

1. Make a determination on the sufficiency of the due process complaint that will be heard at the hearing within five days of receiving such a request; and
2. Initiate the hearing within the first 14 days after either:
 - The date on which he or she receives written notice that the parents and the district waived their right to hold a resolution meeting to resolve their differences prior to commencement of the hearing, or met but were unable to reach agreement; or
 - The expiration of the 30-day period beginning with the receipt of the due process complaint, whichever occurs first.

Appointment

The Board President, or in his or her absence or inability the Vice President, will appoint an IHO immediately after the IHO selected from the rotational list indicates he or is available.

The Board will rescind the appointment of an IHO and appoint a new one if, the parties to the hearing mutually agree that the IHO is either incapacitated or otherwise unavailable or unwilling to continue the hearing or issue a decision. The appointment of a new IHO in such an instance will be made in accordance with the selection and appointment procedures established by this policy.

Compensation

The district shall compensate an impartial hearing officer for his or her services at the maximum rate established for such purpose by the Director of the Division of the Budget. Currently, this rate is \$100.00 per hour for pre-hearing, hearing, and post-hearing activities. In addition, impartial hearing officers may be

reimbursed for reasonable, actual and necessary expenses for automobile travel, meals and overnight lodging in accordance with the current district reimbursement rate set for district employees. Mailing costs associated with the hearing will also be reimbursed. The District will not reimburse impartial hearing officers for administrative assistance, secretarial or other overhead expenses.

Cancellation

The district shall attempt to provide an Impartial Hearing Officer with two (2) business days' advance notice of the cancellation or rescheduling of an impartial hearing. Should the district request the cancellation or rescheduling of a hearing date and fail to provide an Impartial Hearing Officer with two (2) days notice, the district agrees to pay the Impartial Hearing Officer a fee of \$100.00. The district shall not be responsible for costs associated with a parent or guardian's cancellation or adjournment of a hearing.

A copy of this policy will be forwarded to the impartial hearing officer at the time of appointment.

Records relating to the IHO process including, but not limited to, the request for initiation and completion of each impartial hearing will be maintained by the district and such information will be reported to the Office of Vocational and Educational Services for Individuals with Disabilities of SED as required by Commissioner's regulations.

Ref: 8 NYCRR §§200.2; 200.5; 200.21

Adoption date: 7/2/19

(X) Required Local Notice**4321.9 DECLASSIFICATION OF STUDENTS WITH DISABILITIES**

The Board of Education recognizes that it may be appropriate to declassify some students with disabilities. A student may mature and develop skills such that they no longer require the special program, support services or accommodations offered by an Individualized Education Program (IEP), Individualized Education Services Program (IESP) or Services Plan (SP). The Committee on Special Education (CSE), the CSE Subcommittee or, the Committee on Preschool Special Education (CPSE), as applicable, is responsible for making this judgment, while adhering to the requirements of federal and state law and regulation.

Reevaluation

Prior to determining that a student is no longer eligible for special education services and should be placed in a full-time regular education program, the CSE, CSE subcommittee, or CPSE, as applicable, will conduct a declassification evaluation of the student in accordance with the process and procedures prescribed for the evaluation and reevaluation of students with disabilities, by applicable law and regulations. However, the CSE, CSE subcommittee, or CPSE members may determine after reviewing existing evaluation data that no additional information is needed to determine the student's continued eligibility for services.

When a determination is made that no additional data is needed for reviewing a student's continued eligibility for special education services, the CSE, CSE subcommittee, or CPSE Chairperson, as applicable, will notify the student's parents of that determination and the reasons for it, and of their right to nonetheless request an assessment. Unless the student's parents make such a request, the district will not conduct any further assessments.

The district will provide the student's parents with a copy of the reevaluation report and documentation regarding the eligibility determination.

Consistent with applicable law and regulation, the district will not conduct a declassification evaluation if the reason why a student is determined to be ineligible for special education services is that he or she has either:

1. Graduated with a regular high school or Regents diploma; or
2. Exceeded the age of eligibility for services.

However, in such an instance the district will provide the student with a summary of his or her academic achievement and functional performance that also includes recommendations on how to assist the student in meeting his or her post-secondary goals.

Declassification Support Services

It is the goal of the Board of Education to provide an opportunity for the student to succeed in the transition to the regular education program. In order to facilitate that success, the CSE/CPSE may offer educational and support services for a period of time, not to exceed one year. Declassification support services may include:

1. For the student, psychological services, social work services, speech and language improvement services, non-career counseling, and other appropriate support services.
2. For the student's teachers, the assistance of a teacher aide or a teaching assistant, and consultation with appropriate personnel.

The CSE/CPSE will ensure that the appropriate teachers and service providers are informed of the need for the transition services and will specify the nature and duration of those services.

4321.10 PROGRAMS AND SERVICES FOR PARENTALLY-PLACED NONPUBLIC SCHOOL STUDENTS WITH DISABILITIES

The Board of Education recognizes its responsibility to provide special education services to eligible students with disabilities enrolled by their parents in nonpublic schools located within its district, regardless of whether such students are residents of the district. The scope of that responsibility affects:

1. The district's child find activities for locating, identifying, and evaluating parentally-placed nonpublic school students with disabilities;
2. CSE and CSE subcommittee responsibilities for the development of an individualized education services program (IESP), or a services plan (SP), in the case of an out of state resident, for any such student determined to be eligible for special education services under the IDEA and Article 89;
3. The provision of services to such students;
4. The relationship between the district and nonpublic school officials and nonpublic school parents of students with disabilities, with whom the district is required to consult;
5. The district's data collection and reporting responsibilities; and
6. The district's use of federal funds available under the IDEA.

(Refer to policy 4321, Programs for Students with Disabilities under the IDEA and Article 89 for more information regarding the provision of special education services to students with disabilities enrolled in the district's public schools).

Consistent with applicable law and regulations, this policy does not apply to resident students with disabilities enrolled by their parents in a nonpublic school located within the district's boundaries because of a dispute over the provision of a free appropriate public education. Neither does it apply to charter school students, or to students placed in or referred to private schools by public agencies such as school district placements in approved private schools, Special Act school districts, and state-supported or state-operated schools.

District staff will obtain prior consent from the parent of a parentally-placed nonpublic school student with disabilities, or the student if the student is 18 years or older, for the release of personally identifiable information about the student from records collected or maintained pursuant to the IDEA between the district and the student's district of residence.

Location, Identification and Evaluation of Parentally-placed Nonpublic School Students with Disabilities:

The district's activities for locating and identifying parentally-placed nonpublic school students with disabilities will be comparable to those undertaken for students attending the district's public schools, and will be completed in a comparable time period, as well. However, district staff will consult with nonpublic school representatives and representatives of parents of parentally-placed students with disabilities regarding these activities, in order to ensure the equitable participation and an accurate count of such students.

The district will use the same procedures that apply to the evaluation of the district's public school students to evaluate and reevaluate parentally-placed nonpublic school students with disabilities. (Refer to policy 4321, Programs for Students with Disabilities under the IDEA and Article 89, for more information on those procedures).

CSE Responsibilities:

Once a parentally-placed nonpublic school student with disabilities is determined to be eligible for special education services under the IDEA and Article 89, the CSE or CSE subcommittee will develop an IESP or SP for the student in accordance with the following:

1. If the student is a New York State resident, the CSE or CSE subcommittee will develop an IESP based on the student's individual needs in the same manner and with the same contents as an individualized education program prepared for a public school student.
2. If the student is an out-of-state resident, the CSE or CSE subcommittee will develop an SP for the student in accordance with the IDEA and its implementing regulations.

Provision of Services:

Parents of nonpublic school students with disabilities eligible for special education services under this policy must submit to the Board a written request for such services on or before June 1 preceding the school year for which they want the district to provide services. However, if the student has not been first identified as a student with a disability until after June 1, the parent may submit the written request for services within 30 days after the identification, and the student will be entitled to services during the current year if the request is submitted before April 1.

The district will provide special education programs and services to parentally-placed nonpublic school students with disabilities with an IESP on an equitable basis, as compared to special education programs and services provided to other students with disabilities attending public and nonpublic schools within the district.

The district will provide special education programs and services to parentally-placed nonpublic school students with disabilities with an SP to the extent required by the IDEA and its implementing regulations, and in consultation with nonpublic school officials and representatives of parents of parentally-placed nonpublic school students with disabilities. In this regard, the district will expend a proportionate amount of the federal funds it receives under the IDEA to provide such services.

The district will provide parentally-placed nonpublic school students with disabilities only services, including materials and equipment, that are secular, neutral, and non-ideological.

Consultation:

The district will consult in a timely and meaningful manner with nonpublic school officials and representatives of parents of parentally-placed nonpublic school students with disabilities regarding the following issues:

1. The process that will be used to locate and identify parentally-placed nonpublic school students with disabilities, including who parents, teachers, and nonpublic school officials will be informed of the process, and how the process will work throughout the school year to ensure that the students can participate in special education and related services.
2. How, where and by whom special education and related services will be provided to such students, and with respect to students with an SP, the types of services that will be provided.
3. With respect to students with an SP, how a proportionate share of the federal funds the district receives under the IDEA will be spent on special education services to such students.
4. The determination of the proportionate amount of the district's IDEA funds available to serve parentally-placed private school students with disabilities, including how that amount was calculated.
5. How services will be apportioned if the proportionate amount of the district's available IDEA funds is not sufficient to serve all parentally-placed nonpublic school students with an SP, and how and when these decisions will be made. Notwithstanding, the district will provide services to students with an IESP, regardless of the apportionment of such federal funds.

The Superintendent will establish a process for obtaining from nonpublic school officials a written affirmation of their participation in the consultation process. If that affirmation is not secured within a reasonable time, the Superintendent will submit to the State Education Department documentation of the consultation process.

Data Collection and Reporting:

The Superintendent will establish a process for maintaining records and report to the commissioner of education on the number of parentally-placed nonpublic school students who are evaluated, and determined to have a disability, and receive special education services from the district.

**4321.11 PUBLIC REPORT ON REVISIONS TO DISTRICT POLICIES, PRACTICES
AND PROCEDURES UPON A FINDING OF SIGNIFICANT
DISPROPORTIONALITY**

The Board of Education recognizes that, despite the district's best efforts, there may be times when there might be a disproportionate representation of racial and ethnic groups in its special education programs and services, and/or with respect to the suspension of students with disabilities. To minimize the risk of such an occurrence, the Board has endeavored to adopt policies, practices and procedures for the district that are consistent with the IDEA and Article 89 of New York's Education Law, and their implementing regulations.

Nonetheless, upon learning of a significant disproportionality either in the suspension, identification, classification and/or placement of the district's students with disabilities, the Board will immediately review the district's policies, practices and procedures to determine whether they are fully compliant with the requirements of the IDEA and Article 89, or require revisions. If changes are needed, the Board will take immediate steps to adopt and implement any and all necessary revisions.

The Board will inform the public of any revisions to the district's policies, practices and procedures undertaken as a result of a finding of significant disproportionality. The Superintendent will notify school personnel responsible for implementing the revisions.

4321.12 USE OF TIME OUT ROOMS, PHYSICAL RESTRAINTS AND AVERSIVES

The Board of Education recognizes that students with disabilities sometimes exhibit inappropriate behaviors that impede learning. As a result, students with disabilities may require unique approaches to discipline so that they can continue to benefit from their educational program. The Board further acknowledges that the use of aversive behavioral intervention, as defined in §19.5 of the Commissioner's regulations, is prohibited unless the district has followed the procedures outlined below to allow for their use in a child-specific case.

The use of a time out room, physical restraint or aversive intervention will be in conformance with a child's individual education program (IEP). Staff will adhere to federal and state statute and regulation in the administration of these measures.

Time Out Room

A time out room is an area for a student to safely deescalate, regain control and prepare to meet expectations to return to his/her educational program. The room will only be used in conjunction with a behavioral intervention plan, as part the student's IEP. The room will provide a supervised area in order to facilitate self-control, or when it is necessary to remove a student from a potentially dangerous situation or unanticipated situations that pose an immediate concern for the physical safety of the student or others. The location, size and access to the time out room will be in conformance with applicable laws and regulations. The Director of Pupil Personnel Services will be responsible for the development and implementation of regulations covering the use of a time out room, as well as monitoring compliance with those regulations.

The Director of PPS will inform parents prior to the initiation of a behavioral intervention plan that will incorporate the use of a time out room. Upon request, the parent will be shown the space that will be utilized. In addition, the parent will be provided a copy of this policy.

Physical Restraint

Staff will not use physical restraint as a substitute for systematic intervention to modify inappropriate behavior. Staff who may be called upon to physically restrain a student will be trained on safe and effective ways to do so. Physical restraint may be used in an emergency where no other approach would be effective in controlling the student's behavior.

Aversive Behavioral Intervention

Aversive behavioral intervention, as defined in §19.5 of the Commissioner's regulations, shall not be the sole or primary approach to modifying inappropriate behavior. This approach will be limited to self-injurious or aggressive behaviors identified on the child's IEP. If the Committee on Special Education (CSE) or the Committee on Preschool Special Education (CPSE) is considering the use of aversive behavioral intervention for a specific child, they must submit an application to the Commissioner. If the application is approved, and if the CSE/CPSE decides to incorporate it into the IEP, they must then notify the Commissioner.

The IEP shall identify the specific targeted behavior, the aversive intervention to be used and, if applicable, the device to be utilized. The parent must provide informed written consent for the use of the aversive intervention.

The district will establish a Human Rights Committee to monitor the use of aversive behavior interventions. The committee will be comprised of individuals not employed by the school district and its membership will be in conformance with Commissioner's regulations.

Training

Training for staff on the policies and procedures related to the use of time out rooms, physical restraint, aversives, and related behavior management practices, will be provided annually or as needed.

The Director of PPS will be responsible for implementation and oversight of this policy.

Ref: 8 NYCRR §200.22

Adoption date: 7/2/19

(X) Required Local Notice**4321.13 PRESCHOOL SPECIAL EDUCATION**

The Board of Education recognizes the value of early intervention to address the needs of preschool children with disabilities. The Board further recognizes its responsibility to ensure that all resident preschool children with disabilities have the opportunity to participate in preschool programs, approved by the Commissioner of Education, from which they may benefit educationally. The Board authorizes the Superintendent of Schools to establish administrative practices and procedures which shall include:

1. locating, identifying, evaluating, referring and placing all preschool children (generally ages three and four) with disabilities. The register of children eligible to attend a preschool program is to be maintained and revised annually by the Committee on Preschool Special Education (CPSE);
2. ensuring that the parent(s)/guardian(s) of preschool age children with disabilities have received and understand the request for consent for evaluation of their child;
3. developing an individualized education program (IEP) for each preschool age child with a disability;
4. appointing and training appropriately qualified personnel, including the members of the CPSE; **[or, if the district doesn't provide preschool programming directly, insert the following: appointing appropriately qualified personnel to the CPSE, and ensuring that preschool education providers with whom the district contracts have appropriately trained and qualified personnel.]**
5. maintaining lists of impartial hearing officers and of State Education Department-approved special education programs within the county and adjacent counties in which the district is located;
6. preparing and keeping on file summary reports of student data including the number of preschool students with disabilities served, as well students referred but not served and the reasons why they are not served; and
7. reporting to the State Education Department the data on preschool children with disabilities as required, on a form prescribed by the Commissioner.

The duties described above will be carried out within the timeframes established by statute and regulation.

The Board of Education hereby establishes the CPSE as required under the Education Law. Its responsibilities will include the evaluation and recommendation for placement in appropriate approved programs and the provision of appropriate special education programs and services for each preschool child with a disability. The CPSE shall review, at least annually, the status of each preschool child with a disability.

4321.13

It is ultimately the responsibility of the Board to arrange for the appropriate approved preschool program and services for the district's children. Should the Board disagree with the CPSE's recommendations, it shall send the recommendation back to the CPSE so that they may schedule a timely meeting to review the Board's concerns and to revise the IEP, as deemed appropriate.

In the event that a parent/guardian files a due process complaint, a meeting must be convened between the parent/guardian and representatives of the district to try and resolve the complaint within 15 days of receiving the notice, and before the initiation of an impartial hearing. Parents/guardians and the district will jointly determine who should be present at this meeting.

If an agreement cannot be reached, parent/guardians shall be offered mediation to resolve complaints regarding the education of preschool children with disabilities at the same time notice of the availability of an impartial hearing is provided.

The CPSE shall make an annual report on the status of each preschool child with a disability and report on the adequacy of preschool special education programs and services to the Board.

The Board directs the Superintendent to develop and maintain a plan which incorporates information concerning the provision of services for preschool children with disabilities, pursuant to the Regulations of the Commissioner of Education.

4321.14 SPECIAL EDUCATION PERSONNEL

The Board acknowledges its responsibility to recruit, hire, train and retain highly qualified personnel, as defined in the federal Individuals with Disabilities Education Act (IDEA) and its accompanying regulations and in Article 89 of New York State Education law and its accompanying regulations, to provide special education programs and services. In addition, the Board is committed to appointing appropriately qualified personnel to the Committee (and subcommittee) on Special Education (CSE) and Committee (and subcommittee) on Preschool Special Education (CPSE).

The Board will fulfill its obligation with regard to special education personnel by taking measurable steps including, but not limited to the following:

1. Actively recruit personnel who possess prior experience working with students with disabilities.
2. Solicit resumes from graduates of institutions of higher education that offer programs in special education.
3. Seek candidates for teaching positions who are dually certified, to the extent possible.
4. Ensure that every member of the professional staff participates in annual professional performance reviews and professional development plans.
5. Provide appropriate ongoing training and professional development to CSE and CPSE members, and other special education program and service providers to ensure their continuing awareness of their obligations and responsibilities under the law.

The Superintendent is responsible for ensuring that the professional staff is appropriately certified, licensed and trained and that they meet the “highly qualified” standard established in federal and state law. In the event that highly qualified individuals are not available, despite the best efforts of the administration, the Board recognizes its responsibilities to meet the alternative standards established by the State Education Department. The Superintendent, in consultation with the **[insert appropriate title: i.e., Director of Pupil Personnel Services or Administrator for Special Education]**, shall prepare an annual report to the Board which provides information about the certifications and qualifications of the special education professional personnel, as well as a summary of the professional development opportunities offered

4325- ACADEMIC INTERVENTION SERVICES

The Board of Education is committed to providing academic intervention services to students at risk of not meeting the state learning standards. Such services may include additional instruction supplementing the instruction provided in the general curriculum and/or student support services such as guidance, counseling, attendance and study skills needed to support improved academic performance.

Eligibility for academic intervention services will be determined based on a student's performance on school-based tasks including but not limited to results on state assessment exams, classroom assessments, progress monitoring tools, and grade level common assessments and/or in accordance with the uniformly applied district-developed district-adopted procedures. Eligible students will receive services consistent with law and regulations which shall commence no later than the beginning of the semester following a determination that a student is eligible for such services.

Parental Notification and Involvement

Notification on Commencement of Services. The Building Principal will notify the parents of a student determined to be in need of academic intervention services, in writing, upon the commencement of such services. Such notification will include:

- A summary of the academic intervention services to be provided;
- The reason the student needs such services; and
- Consequences of not achieving expected performance levels.

Notification on Ending of Services. The Principal will notify the parent in writing when academic intervention services are no longer needed. Such notification will include:

- The criteria for ending services; and
- The performance levels obtained on district selected assessments, if appropriate.

In addition, the district/schools will provide for ongoing communication with parents which must include opportunities to consult with teachers and other professional staff, regular reports on the student's progress and information on ways to monitor and work with educators to improve the student's performance.

All parental notifications and communications will be done in English and translated, when appropriate, into the native language or mode of communication of the parents.

Description and Review of Academic Intervention Services

The Superintendent of Schools, in consultation with each Building Principal, shall maintain a description of academic intervention and/or student support services for each school. This description will include any variations in services in schools within the district and will specifically delineate:

- the district-wide procedures used to determine the need for academic intervention services;
- the academic intervention instructional and/or support services to be provided;
- whether instructional services and/or support services are offered during the regular school day or during an extended school day or year; and
- the criteria for ending services, including, if appropriate, performance levels that students must obtain on district-selected assessments.

Beginning July 1, 2002 and every two years thereafter, the Superintendent shall review and revise the description of academic intervention services based on student performance results and present such revised description to the Board for approval.

Adoption date: 7/2/19

(X) Required Local Notice

4326- PROGRAMS FOR ENGLISH LANGUAGE LEARNERS

The Board of Education believes that students who, by reason of foreign birth or ancestry, have limited English proficiency (referred to here as “English Language Learners” or ELLs), will be more effective learners of both the language and the curriculum if they receive instruction in both their native language and English. The district will therefore take steps to identify ELL students and provide ELL students with an appropriate program of either Bilingual Education or English as a New Language.

Pursuant to this policy and the regulations of the Commissioner of Education, the Superintendent of Schools is directed to develop appropriate administrative regulations to ensure that students are:

1. screened to determine if the student is an ELL, in accordance with Parts 117 and 154 of the Commissioner's Regulations, a process that will include interviews and assessments and will assign each ELL student to the appropriate subpopulation (newcomer, developing, long term, former or inconsistent/interrupted formal education);
2. identified, as appropriate, as an ELL student with a disability;
3. annually evaluated to determine continued ELL eligibility. Included in the evaluation shall be each student's performance in English language proficiency and academic progress in content areas;
4. assured of access to appropriate instructional and support services, including guidance programs within the timeframes provided by Commissioner's Regulations; and
5. assured of having equal opportunities to participate in all school programs and extracurricular activities as non-ELL students.

The Superintendent shall be responsible for ensuring that the Commissioner of Education is provided with a comprehensive plan that describes the district's ELL program and includes all information specified in the Commissioner's Regulations, before the start of each school year. The district will also provide assurances that the district is providing appropriate school-related information to the parents (or persons in parental relation) of ELL students in English and the language they best understand.

The district will provide an orientation program annually for ELL parents and will meet individually with ELL parents at least once a year, in addition to regular parent/teacher meetings.

In addition, the Superintendent shall ensure that all teachers employed in any Bilingual and/or English as a New Language program are properly certified in accordance with the Commissioner's Regulations, and that all staff receive appropriate professional development on ELL students.

**PROGRAMS FOR ENGLISH LANGUAGE LEARNERS EXHIBIT
PLACEMENT IN A LANGUAGE INSTRUCTION EDUCATIONAL PROGRAM –
PARENTAL NOTIFICATION**

Dear Parent/Guardian:

Your child (insert child's name) has been identified as an "English Language Learner;" a student in need of help to learn English and the district is recommending placement in a (insert name of program). We have determined (insert child's name) eligibility, and placed (him or her) in such a program based on (insert reasons). Please review this letter, choose one of the options (see below) and sign and return the attached form within 5 school days.

(Child's name) is performing at (insert status of child's academic achievement). We have determined (his or her) level of English proficiency at (insert level) based on (insert how the district assessed that level).

We believe that placement in a (insert name of English instruction program) will help (insert child's name) both to learn English and increase (his/her) level of academic performance. Attached is a series of questions and answers we hope will help you better understand the program in which we have placed (insert child's name) and the benefits of that program.

The district will hold regular meetings at least twice a year for parents/guardians of English learners and we encourage you to attend. At those meetings, we will provide you with information about New York State's Learning Standards and the school's expectations that will help you to better understand the goals of your child's program and suggest ways you can help (insert child's name). In between meetings we are always ready to listen and respond to any questions and recommendations you might have. District staff will also meet with you individually once a year, in addition to regular parent/teacher meetings, to discuss your child's language development progress, English language proficiency assessment results, and language development needs in all content areas.

However, you should know that you have the right to:

1. request that (insert child's name) be immediately withdrawn from the instructional bilingual program that the district has offered your child and schedule a meeting with the building principal and the district supervisor of bilingual education. At a minimum, however, (insert child's name) must participate in an English as a New Language program;
2. request placement in another available program or method of instruction;
3. request assistance in selecting from among the various programs and methods of instruction available; and
4. accept the district's recommended placement.

Whatever your decision, we encourage you to help (insert child's name) attain English proficiency and high academic achievement levels. Some ways in which you can do this include: (insert some examples).

If you have any questions about this notice or the attached information, please contact (insert the name of the Building Principal or the program's coordinator). All of us in the district look forward to working with you to help (insert child's name) improve (his or her) English and overall academic skills.

Sincerely,

Building Principal

Questions and Answers About Your Child's English Instruction Educational Program

1. What methods of instruction will be used in my child's program?
2. Does the district offer any other programs for English language learners?
3. How do these other programs differ from the one offered my child in terms of methods of instruction, content, instructional goals and the use of English and a native language in instruction?
4. On what basis did the district select my child's program as opposed to another one?

5. How will my child's program specifically help (him or her) learn English and meet age appropriate academic achievement standards for grade promotion and graduation?

6. My child is classified as a student with a disability. How will my child's English learning program meet the objectives set out in (his or her) individualized education program?

Adoption date: 7/2/19

4327 HOMEBOUND INSTRUCTION

Homebound instruction is a service provided to students who are unable to attend school due to medical, emotional or disciplinary problems. Secondary students receive instruction for two hours per day and elementary students receive one hour per day. Students receive credit for their work while on homebound instruction.

In the case of medical issues, the district makes provisions for homebound instruction upon referral from the student's family physician to the building principal following the guidelines established by the Superintendent of Schools for placing a student on homebound instruction and the completion of the accompanying form.

If a student is on homebound instruction due to disciplinary reasons, the building principal will initiate the request. The principal will submit that request to the Assistant Superintendent for Instruction, who will review the case and forward it to the Superintendent. Arrangements will then be made for instruction.

The district will provide homebound instruction for any such resident student who will be absent from school for at least two consecutive weeks, unless otherwise required by law. The district will also provide home instruction for students suspended from school, consistent with State regulation.

Homebound instruction will strive to keep the student on pace to rejoin his/her class and maintain academic progress. The Board recognizes that students who are out of school for extended periods of time are at risk of falling behind academically and/or losing connection to the school community. The Board directs the administration to evaluate periodically whether homebound instruction is effective in keeping students on track to graduate, and if not, to take steps to improve instruction and implement approaches and/or offer services that support the transition back to school.

Ref: Education Law §§1709(24); 4401 et seq.
8 NYCRR §175.21

Adoption date: 7/2/19

CLASS SIZE

The Board of Education desires to keep class sizes in the ranges where effective learning can best occur, recognizing that the actual number of students in classes can be quite variable, depending on the subject matter, the ages of the students, the need for individual attention, the use of laboratory or industrial equipment, and other related factors. It is recognized that smaller class sizes may afford a greater opportunity for individualization.

An effective class size policy may accommodate for differences in ability and learning styles.

The objective of the Class Size policy is to ensure that the Wantagh Public Schools provide a system of education in the best interests of the students within the mainstream of class size trends of the region. This must be coupled with the recognition that financial considerations and the availability of facilities have great impact on the school system and may well result in classes which are larger than provided for in the guidelines.

Adoption date: July, 1994

7/2/19

CLASS SIZE REGULATION

The Superintendent of Schools is responsible for guiding the Board of Education in its decisions regarding class size. The Superintendent, in making decisions regarding class size, should consider the following:

1. what is in the best educational interest of children;
2. input from Building Principals and other professional staff;
3. what is fiscally responsible and sustainable for the community;
4. physical space limitation at the building level.

The Superintendent will review these matters and make recommendations to the Board prior to its reorganization meeting in July based upon the data available at that time.

In making recommendations to the Board, the Superintendent will consider the following guidelines:

Maximum Class Size Grades K-3:	24
Maximum Class Size Grades 4-6:	26
Maximum Class Size Grades 7-12:	28

The Superintendent will apprise the Board of criteria 1-4 in making recommendations in regard to the class sizes. The Board, after considering the data presented, may make exceptions.

The Superintendent will provide the Board of Education with an annual class size and district enrollment report to ensure that class size maximums are adhered to as well as to ensure that the district is being fiscally responsible while offering the wide range of academic opportunities to our students. If a secondary elective class size falls below 12, the Superintendent of Schools will make a recommendation to the Board of Education to determine whether to run that course or not.

4511 TEXTBOOK SELECTION AND ADOPTION

The Board of Education is responsible for the selection and designation of all textbooks to be used in the district schools. The Superintendent of Schools, in cooperation with the Assistant Superintendent for Instruction, shall recommend suitable lists of textbooks to be used in the schools for the Board's consideration.

Texts, once approved by the Board, shall not be superseded for a period of five years, except by a three-fourth's vote of the Board.

The Superintendent shall establish procedures for the selection and recommendation of textbooks and a method for selecting staff members who shall serve in the selection and recommendation process.

The following criteria are to be considered in the selection of textbooks:

1. textbook or material should have been copyrighted within the past five years;
2. qualifications of the author(s) on the subject;
3. adaptability to existing instructional program;
4. accuracy of the information presented;
5. sufficient scope to meet the requirements of the curriculum as developed locally and approved by the State Education Department;
6. objectivity and impartiality in treatment of subject matter and freedom from bias and prejudice;
7. high quality format in respect to typography, arrangement of materials or pages, cover design, size and margins;
8. appropriateness to grade level as to vocabulary, sentence structure, and organization;
9. textbook series should meet grade-to-grade requirements. They should contain supplementary aids to learning, when desirable and necessary, such as a table of contents, introduction, study activities, exercises, questions, problems, selected references, bibliography, index glossary and appendices;

10. texts should include appropriate illustrative materials--pictures, maps, charts, graphs, diagrams, etc., which clarify the text and enrich the content;
11. materials should fairly represent the many ethnic and cultural groups and their contribution to American heritage; and
12. a reasonable balance of viewpoints regarding controversial issues should be presented.

The following criteria are to be considered in the selection of literary works for classroom use in teaching literature, as well as the assignment of such works to particular grade levels:

1. use of a compositional style which contributes to the reader's critical and appreciative understanding of the work;
2. sophisticated use of literary devices (i.e., metaphor, point of view, tone) to further student understanding of written concepts;
3. levels of student maturity and experience necessary for empathic reading of literature;
4. capacity of a work to capture student interest;
5. thematic treatment which promotes sound and healthy values for students;
6. intrinsic qualities that establish a work as a significant part of the literary heritage; and
7. variety to avoid duplication of theme, plot, setting, etc., unless such duplication affords opportunities for comparison and contrast or serves to reinforce understanding.

4513- LIBRARY MATERIALS SELECTION

The Board of Education supports the establishment and maintenance in each building of library-media centers which provide services to students and staff. The Board delegates the responsibility to the Superintendent or his/her designee for the selection and purchase of materials and equipment.

The library-media staff will work closely with students, staff and administrative personnel in the selection and evaluation of materials for purchase.

In order to provide the Superintendent and his/her staff with guidance in the acquisition of instructional resource material, such as library books, references, audiovisuals, maps, etc., the Board endorses the guidelines approved by the American Library Association that such resources:

1. provide information that will enrich and support the curriculum, taking into consideration the varied interests, abilities, and maturity levels of the students served;
2. provide information that will stimulate growth in factual knowledge, literary appreciation, aesthetic values, and ethical standards;
3. provide information that will enable students to make intelligent judgments in their daily lives;
4. provide information on opposing sides of controversial issues so that young citizens may develop under guidance the practice of critical reading and thinking;
5. provide information representative of the many religious, ethnic, and cultural groups and their contributions to our American heritage; and
6. place principle above personal opinion and reason above prejudice in the selection of materials of the highest quality in order to assure a comprehensive collection appropriate for the users of the library.

The Superintendent shall be responsible for the selection of resource materials within the aforesaid guidelines and for the determination of factual accuracy, readability, authoritativeness, integrity and quality of format. To assist in the selection process, reputable, unbiased professionally prepared aids (such as the Horn Book, School Library Journal, etc.) shall be consulted as guides.

In order to respond to any complaints about, or challenges to, the selection of library materials, the district has adopted regulations (1420-R, Complaints About Curricula or Instructional Materials Regulation) establishing a complaint procedure and providing for a committee to review such complaints or challenges.

If any person wishes to permanently remove materials from a school district library, he/she must seek the formal approval of the Board. The Board may determine that such materials should be removed. Such determination must not be based upon official suppression of ideas, but rather upon the educational suitability of the materials in question. Only the Board and/or the Superintendent may authorize said permanent removal of instructional materials, pursuant to the decision of the Board.

**4526- COMPUTER USE IN INSTRUCTION:
NETWORK ACCESS AND ACCEPTABLE USE**

The goal of the Wantagh Union Free School District in network access/acceptable use is to improve learning and teaching through interpersonal communication, student and staff access to information, research, staff development, collaboration and dissemination of successful educational practices, methods, and materials. It is the district's responsibility to instruct students about network and Internet safety, their role as a "network citizen" and the code of ethics involved with this new global community.

This policy shall be available for review by parents or guardians on request, and parents or guardians should be familiar with it. The regulation that accompanies this policy contains restrictions on accessing inappropriate and/or harmful material on the Internet through the district's computer network in order to protect users. In addition, the District will employ filtering technology and will monitor and attempt to properly channel online activities of students. However, there is a wide range of material available on the Internet that may not be in keeping with the particular views of the families or the students. The district recognizes that parents have primary responsibility for transmitting their particular set of values to their children and that the parents or guardians of minors are ultimately responsible for setting and conveying standards that their children should follow when using the Internet, media and information sources. Parents are also responsible for monitoring the students' use of the Internet and the district's network if students are using the district's computer network to access the Internet from home.

The Board believes that the benefits of Internet access that result from the vast amount of information resources and opportunities for collaboration outweigh the disadvantages of such access. However, parents or guardians may believe otherwise and therefore, may specifically request that the district not allow their child to have Internet access on the district's computer network. Such request must be made in writing, signed and dated by the parent(s) or guardian and delivered to the student's building principal. Parents or guardians must make separate written requests for each child that will be denied Internet access by the District.

In such cases where Internet use is part of the curriculum of a course or program, students will be permitted to complete alternative projects approved by the student's teacher.

All users of the district's computer network and the Internet must understand that use is a privilege, not a right, and that use entails responsibility. The district reserves the right to control access to the Internet for all users of its computers and network. The district may either allow or prohibit certain kinds of online activity, or access to specific websites.

Regulations and handbooks, to be developed by the Superintendent, in consultation with Director of Technology will provide specific guidance on this, as well as rules governing the use and security of the district's computer network. All users of the district's computer network and equipment shall comply with this policy and regulation. Failure to comply may result in disciplinary action as well as suspension and/or revocation of computer access privileges.

The Superintendent shall be responsible for designating the Director of Technology to oversee the use of district computer resources. The Director will prepare in-service programs for the training and development of district staff in computer skills, and for the incorporation of computer use in appropriate subject areas.

With increased concern about identity theft, unwarranted invasion of privacy and the need to protect personally identifiable information, prior to students being directed by staff to use any cloud-based educational software/application, staff must get approval from the Director of Technology. The Director of Technology will determine if a formal contract is required or if the terms of service are sufficient to address privacy and security requirements, and if parental permission is needed.

The Superintendent, working in conjunction with the designated purchasing agent for the district, the Director of Information Systems and Instructional Technology and the instructional materials planning committee, will be responsible for the purchase and distribution of computer software and hardware throughout district schools. They shall prepare and submit for the Board's approval a comprehensive multi-year technology plan which shall be revised as necessary to reflect changing technology and/or district needs.

Cross-ref: 5300, Code of Conduct
5695, Student Use of Personal Electronic Devices

Adoption date: 7/2/19

COMPUTER USE IN INSTRUCTION: NETWORK ACCESS AND ACCEPTABLE USE REGULATION

The following rules and regulations govern the use of the district's computer network system and access to the Internet.

I. Administration

- The Superintendent of Schools shall designate a **Director of Technology** to oversee the district's computer network.
- The Director of Technology shall monitor and examine all network activities, as appropriate, to ensure proper use of the system.
- The Director of Technology shall be responsible for disseminating and interpreting district policy and regulations governing use of the district's network at the building level with all network users.
- The Director of Technology shall provide employee training for proper use of the network and will ensure that staff supervising students using the district's network provide similar training to their students, including providing copies of district policy and regulations governing use of the district's network.
- The Director of Technology shall ensure that all disks and software loaded onto the computer network have been scanned for computer viruses.
- The Director of Technology will review staff requests to use 'cloud-based' educational software/applications to ensure that personally identifiable information (PII) is protected in accordance with district standards prior to student use.
- All student agreements to abide by district policy and regulations and parental consent forms shall be kept on file in the district office.

II. Internet Access

- Students will be provided Internet access throughout the school day.
- Students will be provided with individual access accounts
- Students may have Internet access for educational purposes only.
- Student Internet access may be restricted depending on the grade level.
- All users will be prohibited from accessing social networking sites; playing online games; purchasing or selling anything online (unless authorized for district purposes); personal email services; and watching videos online (unless authorized for a school purpose).
- Students are not to participate in chat rooms.
- Students may not construct their own web pages using district computer resources.

A staff member will be required to monitor these activities.

III. Acceptable Use and Conduct

- Access to the district's computer network is provided for educational purposes and research consistent with the district's mission and goals.
- Use of the district's computer network is a privilege, not a right. Inappropriate use may result in the suspension or revocation of that privilege.
- Each individual in whose name an access account is issued is responsible at all times for its proper use.
- All network users will be issued a login name and password. Passwords must be changed periodically.
- Only those network users with written permission from the principal or Director of Information Systems and Instructional Technology may access the district's system from off-site (e.g., from home).
- All network users are expected to abide by the generally accepted rules of network etiquette. This includes being polite and using only appropriate language. Abusive or sexual language or images, vulgarities and swear words are all inappropriate.
- Network users identifying a security problem on the district's network must notify the appropriate teacher, administrator or Director of Information Systems and Instructional Technology. Under no circumstance should the user demonstrate the problem to anyone other than to the district official or employee being notified.

- Any network user identified as a security risk or having a history of violations of district computer use guidelines may be denied access to the district's network.
- A teacher, supervisor or administrator must approve any photograph to be exchanged through electronic means.

IV. Prohibited Activity and Uses

The following is a list of prohibited activity concerning use of the district's computer network. Violation of any of these prohibitions may result in discipline or other appropriate penalty, including suspension or revocation of a user's access to the network.

- Using the network for commercial activity, including advertising.
- Infringing on any copyrights or other intellectual property rights, including copying, installing, receiving, transmitting or making available any copyrighted software on the district computer network.
- Using the network to receive, transmit or make available to others obscene, offensive, or sexually explicit material.
- Using the network to receive, transmit or make available to others messages that are racist, sexist, abusive or harassing to others.
- Using another user's account or password.
- Attempting to read, delete, copy or modify the electronic mail (e-mail) of other system users and deliberately interfering with the ability of other system users to send and/or receive email.
- Forging or attempting to forge e-mail messages.
- Engaging in vandalism. Vandalism is defined as any malicious attempt to harm or destroy district equipment or materials, data of another user of the district's network or of any of the entities or other networks that are connected to the Internet. This includes, but is not limited to, creating and/or placing a computer virus on the network.
- Using the network to send anonymous messages or files.
- Using the network to receive, transmit or make available to others a message that is inconsistent with the district's Code of Conduct.
- Revealing the personal address, telephone number or other personal information of oneself or another person.
- Using the network for sending and/or receiving personal messages.
- Intentionally disrupting network traffic or crashing the network and connected systems.

- Installing personal software or using personal disks on the district's computers and/or network without the permission of the appropriate district official or employee.
- Using district computing resources for commercial or financial gain or fraud.
- Stealing data, equipment or intellectual property.
- Gaining or seeking to gain unauthorized access to any files, resources, or computer or phone systems, or vandalize the data of another user.
- Wastefully using finite district resources.
- Changing or exceeding resource quotas as set by the district without the permission of the appropriate district official or employee.
- Using the network while access privileges are suspended or revoked.
- Using the network in a fashion inconsistent with directions from teachers and other staff and generally accepted network etiquette.

V. No Privacy Guarantee

Students using the district's computer network should not expect, nor does the district guarantee privacy for electronic mail (e-mail) or any use of the district's computer network. The district reserves the right to access and view any material stored on district equipment or any material used in conjunction with the district's computer network.

VI. Sanctions

All users of the district's computer network and equipment are required to comply with the district's policy and regulations governing the district's computer network. Failure to comply with the policy or regulation may result in disciplinary action as well as suspension and/or revocation of computer access privileges.

In addition, illegal activities are strictly prohibited. Any information pertaining to or implicating illegal activity will be reported to the proper authorities. Transmission of any material in violation of any federal, state and/or local law or regulation is prohibited. This includes, but is not limited to materials protected by copyright, threatening or obscene material or material protected by trade secret. Users must respect all intellectual and property rights and laws.

VII. District Responsibilities

The district makes no warranties of any kind, either expressed or implied, for the access being provided. Further, the district assumes no responsibility for the quality, availability, accuracy, nature or reliability of the service and/or information provided. Users of the district's computer network and the Internet use information at their own risk. Each user is responsible for verifying the integrity and authenticity of the information that is used and provided.

The district will not be responsible for any damages suffered by any user, including, but not limited to, loss of data resulting from delays, non-deliveries, mis-deliveries, or service interruptions caused by its own negligence or the errors or omissions of any user. The district also will not be responsible for unauthorized financial obligations resulting from the use of or access to the district's computer network or the Internet.

Further, even though the district may use technical or manual means to regulate access and information, these methods do not provide a foolproof means of enforcing the provisions of the district policy and regulation.

4526.1 INTERNET SAFETY

The Board of Education is committed to undertaking efforts that serve to make safe for children the use of district computers for access to the Internet and World Wide Web. To this end, although unable to guarantee that any selected filtering and blocking technology will work perfectly, the Board directs the Superintendent of Schools to procure and implement the use of technology protection measures that block or filter Internet access by:

- adults to visual depictions that are obscene or child pornography, and
- minors to visual depictions that are obscene, child pornography, or harmful to minors, as defined in the Children's Internet Protection Act.

Subject to staff supervision, however, any such measures may be disabled or relaxed for adults conducting bona fide research or other lawful purposes, in accordance with criteria established by the Superintendent or his or her designee.

The Superintendent or his or her designee also shall develop and implement procedures that provide for the safety and security of students using electronic mail, chat rooms, and other forms of direct electronic communications; monitoring the online activities of students using district computers; and restricting student access to materials that are harmful to minors.

In addition, the Board prohibits the unauthorized disclosure, use and dissemination of personal information regarding students; unauthorized online access by students, including hacking and other unlawful activities; and access by students to inappropriate matter on the Internet and World Wide Web. The Superintendent or his or her designee shall establish and implement procedures that enforce these restrictions.

The Director of Technology designated under the district's policy on the acceptable use of district computers (policy 4526) shall monitor and examine all district computer network activities to ensure compliance with this policy and accompanying regulation. He or she also shall be responsible for ensuring that staff and students receive training on their requirements.

All users of the district's computer network, including access to the Internet and World Wide Web, must understand that use is a privilege, not a right, and that any such use entails responsibility. They must comply with the requirements of this policy and accompanying regulation, in addition to generally accepted rules of network etiquette, and the district's policy on the acceptable use of computers and the internet (policy 4526). Failure

to comply may result in disciplinary action including, but not limited to, the revocation of computer access privileges.

4526.1

As part of this policy, and the district's policy on acceptable use of district computers (policy 4526), the district shall also provide age-appropriate instruction regarding appropriate online behavior, including:

1. interacting with other individuals on social networking sites and in chat rooms, and
2. cyberbullying awareness and response.

Instruction will be provided even if the district prohibits students from accessing social networking sites or chat rooms on district computers.

Adoption date: 7/2/19

4526.1R -INTERNET SAFETY REGULATION

The following rules and regulations implement the Internet Safety Policy adopted by the Board of Education to make safe for children the use of district computers for access to the Internet and World Wide Web.

I. Definitions

In accordance with the Children's Internet Protection Act,

- Child pornography refers to any visual depiction, including any photograph, film, video, picture or computer or computer generated image or picture, whether made or produced by electronic, mechanical, or other means, of sexually explicit conduct, where the production of such visual depiction involves the use of a minor engaging in sexually explicit conduct. It also includes any such visual depiction that (a) is, or appears to be, of a minor engaging in sexually explicit conduct; or (b) has been created, adapted or modified to appear that an identifiable minor is engaging in sexually explicit conduct; or (c) is advertised, promoted, presented, described, or distributed in such a manner than conveys the impression that the material is or contains a visual depiction of a minor engaging in sexually explicit conduct.
- Harmful to minors means any picture, image, graphic image file, or other visual depiction that (a) taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion; (b) depicts, describes or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and (c) taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

II. Blocking and Filtering Measures

- The Superintendent or his or her designee shall secure information about, and ensure the purchase or provision of, a technology protection measure that blocks access from all district computers to visual depictions on the Internet and World Wide Web that are obscene, child pornography or harmful to minors.
- The district's Director of Information Systems and Instructional Technology shall be responsible for ensuring the installation and proper use of any Internet blocking and filtering technology protection measure obtained by the district.
- The Director of Information Systems and Instructional Technology or his or her designee may disable or relax the district's Internet blocking and filtering technology measure only for adult staff members conducting research related to the discharge of their official responsibilities.

- The Director of Information Systems and Instructional Technology shall monitor the online activities of adult staff members for whom the blocking and filtering technology measure has been disabled or relaxed to ensure there is not access to visual depictions that are obscene or child pornography.

III. Monitoring of Online Activities

- The district's Director of Technology shall be responsible for monitoring to ensure that the online activities of staff and students are consistent with the district's Internet Safety Policy and this regulation. He or she may inspect, copy, review, and store at any time, and without prior notice, any and all usage of the district's computer network for accessing the Internet and World Wide Web and direct electronic communications, as well as any and all information transmitted or received during such use. All users of the district's computer network shall have no expectation of privacy regarding any such materials.
- Except as otherwise authorized under the district's Computer Network or Acceptable Use Policy, students may use the district's computer network to access the Internet and World Wide Web only during supervised class time, study periods or at the school library, and exclusively for research related to their course work.
- Staff supervising students using district computers shall help to monitor student online activities to ensure students access the Internet and World Wide Web, and/or participate in authorized forms of direct electronic communications in accordance with the district's Internet Safety Policy and this regulation.
- The district's Director of Technology shall monitor student online activities to ensure students are not engaging in hacking (gaining or attempting to gain unauthorized access to other computers or computer systems), and other unlawful activities.

IV. Training

- The district's Director of Technology shall provide training to staff and students on the requirements of the Internet Safety Policy and this regulation at the beginning of each school year.
- The training of staff and students shall highlight the various activities prohibited by the Internet Safety Policy, and the responsibility of staff to monitor student online activities to ensure compliance therewith.
- The district shall provide age-appropriate instruction to students regarding appropriate online behavior. Such instruction shall include, but not be limited to: positive interactions with others online, including on social networking sites and in chat rooms; proper online social etiquette; protection from online predators and personal safety; and how to recognize and respond to cyberbullying and other threats.

- Students shall be directed to consult with their classroom teacher if they are unsure whether their contemplated activities when accessing the Internet or World Wide Web are directly related to their course work.
- Staff and students will be advised to not disclose, use and disseminate personal information about students when accessing the Internet or engaging in authorized forms of direct electronic communications.
- Staff and students will also be informed of the range of possible consequences attendant to a violation of the Internet Safety Policy and this regulation.

V. Reporting of Violations

- Violations of the Internet Safety Policy and this regulation by students and staff shall be reported to the Building Principal.
- The Principal shall take appropriate corrective action in accordance with authorized disciplinary procedures.
- Penalties may include, but are not limited to, the revocation of computer access privileges, as well as school suspension in the case of students and disciplinary charges in the case of teachers.

Adoption date: 7/2/19

4531-FIELD TRIPS AND EXCURSIONS

The Board of Education recognizes the desirability of providing off-campus experiences which will enhance the educational program of the school system. The Superintendent of Schools will determine the frequency and content of class field trips. Each student must secure the permission of his/her parent or guardian before participating in such activity.

It is the policy of the Board to ensure supervision for any school groups (under its jurisdiction) who go to other schools to represent the school in competition, as guests, or on field trips and excursions.

Routine field trips are those taken within the community, the metropolitan area and New York State in general. The main criterion for assessing the value of a routine field trip is that it shall be a valuable educational experience relating directly to the educational program. Routine field trips must be approved by the Building Principal and the Assistant Superintendent for Instruction.

Field trips that extend beyond New York State shall be considered non-routine. It is district policy that the Board receive notification of such non-routine field trips before receiving approval by the Superintendent and prior to any announcements of the potential trips being issued to students. Teachers and administrators should be mindful of this because it will require ample prior planning to allow sufficient time for the Superintendent's consideration. Only after approval has been received by the Superintendent may teachers issue announcements and field trip request forms.

The Board discourages any overnight trips, even if curriculum related, which will result in being away when school is in session. However, the Superintendent will review each individual case on its merits. Prior approval by the Superintendent must be received for any overnight trip even if it takes place within the State of New York if it means that school will be missed. The noted exceptions to this are invitational sports events or curriculum in which case the Principal, in conjunction with the Assistant Superintendent for Instruction, will make the final determination regarding approval.

Extracurricular field trips are those for which attendance is optional and which are not an integral part of the school program. Extracurricular field trips such as ski trips, language trips to Canada, Mexico, etc., will not be financially supported by the Board. However, such trips must still receive approval from the Superintendent.

No school personnel shall participate in making arrangements for field trips during working hours if the trip is not a school-supported one. If any school employee makes arrangements for such trips on their own time, field trip permission forms issued must clearly state that the trip is not school sponsored. School premises may not be used for the departure or return of such trips.

Transportation

All members of such groups are required to travel together with the faculty representative of the school on the way to and from the place visited, and for the duration of the trip. Transportation is arranged by the Business Office and every group member is expected to go and return with the group unless specifically excused by the supervisor of the trip upon receipt of a written request by a parent or guardian. Such excused students are only to be released to their specific parent or guardian.

When the district provides transportation to students on a school-sponsored field trip, extracurricular activity or any other similar event, it shall provide transportation back to either the point of departure or to the appropriate school in the district unless:

1. the parent or legal guardian of a student participating in such event has provided the district with a written notice authorizing an alternative form of return transportation for the student; or
2. intervening circumstances make such transportation impractical.

Where intervening circumstances have made transportation back to the point of departure or to the appropriate school in the district impractical, a representative of the district shall remain with the student until such student's parent or legal guardian has been contacted and the student has been delivered to his/her parent or legal guardian.

Ref: Education Law §§1604; 1709; 1804; 1903; 2503; 2554; 2590-e

Adoption date: 7/2/19

FIELD TRIPS AND EXCURSIONS REGULATION

Purpose of Field Trips

Field trips should be planned to enrich classroom experiences and provide the student with an educational experience directly related to the curriculum that the class is studying. This experience should be one that cannot be duplicated within the local school setting.

Pre-Field Trip Procedures

1. The faculty member(s) planning the field trip should be familiar with the facility to which the field trip will be taken and evaluate the setting for the appropriateness of the resources for the students in the particular grade and age level who would be going.
2. Once the decision has been made by the faculty member(s) to proceed with the field trip, a field trip request form should be processed. In the elementary school, approval for field trips must be obtained from the Building Principal. In the secondary school, approval must first be obtained from the Department Chairperson and then the Principal. The Principal will maintain a file of all field trip application forms and permission slips.
3. Field trip approval must be obtained, and, if using buses, a bus request made at least two weeks in advance of the proposed trip. Where possible, public transportation should be utilized in order to conserve energy.
4. Before going on any school sponsored trip, each student must have a "permission slip" signed by a parent or a guardian.
5. When there is a choice of scheduling field trips during school hours and at times when school is not in session, it is preferable to avoid school hours.
6. In all cases the Building Principal will be consulted by the sponsoring teacher or group and he/she will make a decision regarding the educational value of a proposed field trip.
7. Adequate chaperoning will be provided for all field trips so that students will have supervision throughout the entire field trip experience. It is recommended that a ratio of 1-10 on the elementary level (K-5), and 1-20 on the secondary level (6-12), adult-student chaperoning ratio be maintained. Parents can be included as chaperones in establishing this ratio.
8. In all matters arising during the trip, the teacher's decisions will prevail. If an administrator is on the trip, the administrator's decision will prevail.
9. Before announcing a field trip to students, teachers will discuss the possibilities with the Building Principal. If it is the type that will require Central Administrative approval, such approval shall be secured prior to announcing it to the students.

10. If a student requires medication, be certain to have written parental authorization describing the name of the medication, the dosage, and the allotted times the student should take the medication. A teacher has the right to decline administering medication to students. If a child must have medication and the parent or school nurse is not attending the trip, the child may have to stay home.
11. In all schools "Procedures for Successful Education Field Trips" shall be followed.

Field Trip Finances

Field Trip Implementation

1. All trips shall terminate at the school or location from which it originated. Where intervening circumstances have made transportation back to the point of departure or to the appropriate school in the district impractical, a representative of the district shall remain with the student until such student's parent or legal guardian has been contacted and the student has been delivered to his/her parent or legal guardian.
2. The teacher(s) who accompany the students on a field trip must maintain constant supervision over the students during the entire trip.
3. The same rules governing students' conduct at school apply to all trips outside the school.
4. Students taking part in school activities - field trips, sports -- that require a bus must ride the bus going to the planned destination and returning from the planned destination. In the secondary schools, students are not allowed to ride in student cars on field trips.
5. When returning from a field trip:
 - a. if students participating in a field trip return prior to the close of school, they are to report to their respective classes; and
 - b. if students participating in a field trip return after the close of school, the faculty member(s) supervising the students shall remain with them until the students are legally dismissed. The Board of Education assumes no responsibility for transporting students to their homes.
6. Every field trip bus shall have a teacher in charge who rides with the children on the bus.

Field Trip Restrictions

1. In the secondary schools, field trips should not be planned during the last two weeks of each marking period or the last six weeks of school. The Superintendent of Schools may make exceptions to this rule.
2. When a faculty member is planning a trip for a large group, participation by 80% of the student group involved is necessary.
3. Field trip approval is contingent upon proper coverage of a teacher's classes and/or funds available to hire qualified substitutes.
4. After the Principal has approved a field trip request, he/she will forward the transportation request to the Transportation Office. Such request will be granted subject to the availability of the buses for the date and hours requested.
5. In the secondary schools, any work missed by participation in a field trip must be made up.
6. Student's exclusion will occur if:
 - a. student is deemed a safety, security, or behavioral risk; or
 - b. student fails to return a signed permission slip by the day before the field trip.

Adoption date: 7/2/19

() Required

SCHOOL VOLUNTEERS

The Board of Education recognizes that the use of volunteers strengthens school/community relations through positive participation, builds an understanding of school programs among interested citizens, and can assist district employees in providing more individualized and enriched opportunities in instruction.

The Board encourages volunteers from all backgrounds and age groups who are willing to share their time, training, and experience to benefit the students of the district. For the purposes of this policy, volunteers are defined as individuals who assist the district and its students on an ongoing basis beyond the typical school day, including extracurricular activities such as clubs and athletics. Support provided by individuals at functions typically facilitated by the PTA or field trip chaperones are not bound by this policy.

Volunteers may be involved in many facets of school operations, but to the greatest extent possible volunteers shall not be permitted to have unsupervised direct contact with students. Should the advisor or coach of a club, activity, or sport decide that a volunteer's activity may necessitate regular unsupervised direct contact with students, they would need to inform the Human Resources Office where the volunteer would submit a formal application. Volunteers shall not be used to provide transportation for school-sponsored activities. School personnel who are responsible for tasks or projects that involve the use of volunteers shall identify appropriate tasks and time schedules for such volunteer activities, as well as make provisions for adequate supervision.

Volunteers will be required to complete the form, be fingerprinted, and disclose any criminal convictions. The district shall retain a complete record of all information obtained through the application process for the same period of time it retains information regarding district employees. All volunteers are required to act in accordance with district policies, regulations and school rules. Any staff member who supervises volunteers may ask any volunteer who violates district policies, regulations or school rules to leave school grounds. 2 Each Building Principal shall be responsible for maintaining a current and complete list of all active volunteers and their assignments.

4710 GRADING SYSTEMS

Grading is considered a positive tool to indicate achievement and development in each class or subject in which a student is enrolled. The Board of Education recognizes that the classroom teacher has the primary responsibility to evaluate students and determine student grades.

The district shall use a uniform grading system. Classroom teachers shall evaluate students and assign grades according to the established system.

Grading shall be based upon student improvement, achievement, and participation in classroom discussions and activities. Parents/guardians shall be provided a written report card at least four (4) times a year regarding their child's progress. The use of marks and symbols will be appropriately explained.

Grading shall not be used for disciplinary purposes, i.e., reducing grade for an unexcused absence, although a lower grade can be given for failure to complete assigned work or for lack of class participation.

All students are expected to complete the assigned class work and homework as directed. Students are also expected to participate meaningfully in class discussions and activities in order to receive course credit. If work is missed due to absence, the student is expected to make up the work. The student and/or the student's parent(s) or guardian(s) should discuss with the student's teacher an appropriate means of making up the missed work. With the possible exception of absences intended by the student as a means of gaining an unfair academic advantage (e.g., to secure more time to study for a test), every effort will be made to provide students with the opportunity and assistance to make up all work missed as a result of absence from class.

The professional judgment of the teacher shall be respected. Once a grade is assigned to a student by a teacher, the grade may only be changed by a district administrator after notification to the teacher of the reason for such change. Should an administrator enforce a grade change, he/she shall be prepared to report to the Superintendent of Schools and/or the Board.

(X) Required Local Notice**4750- PROMOTION AND RETENTION OF STUDENTS**

It is essential that each child experience both challenge and success from school activities. To this end, the district will make every effort to place each student in the most appropriate learning level for a successful educational experience. The district strongly believes that the retention of a student in grades k through 8 should only be considered as an absolute last resort after every other type of support or intervention has been attempted.

District curriculum guides indicate goals for achievement by the "average" student at each grade level. However, academic growth, like physical growth, does not take place at the same pace or time for all individuals. Certain students may achieve mastery in a shorter period, while others need additional time. Early identification and intervention, promotion and retention are methods of meeting the needs of such children.

The following guidelines shall govern student progression:

Early Identification/Intervention

Classroom teachers are expected to make every effort, consistent with the district's implementation of response to intervention (RTI), to identify early those students at risk of failing and to provide supports. The Building Principal and the parents/guardian must be notified promptly if a student is at risk for retention, and a special support program must be designed and implemented for each child identified as in danger of failing. Such support services may include, but are not limited to, individualized assistance before, during or after the school day; a change in instructional approach, remedial classes; and, where appropriate, referral to the Child Study Team, or ultimately the Committee on Special Education for evaluation. In any situation whereby the building team is considering retention for a student, the Superintendent of Schools must be notified and consulted.

Promotion/Retention

Elementary schools. At the elementary level, students who demonstrate grade level proficiency levels in math, reading, and writing must be promoted. retention is limited to those situations where the best interest of the child is reasonably assured. Every effort will be made to avoid retention as a support strategy and all available resources will be used to determine the child's appropriate placement.

Middle schools. Students who fail any course in the middle school will have the failure evaluated. A determination will be made as to the reason for the failure and the student may be required to repeat the subject, but in typical cases shall be promoted with recommendation for summer school. The decision will be arrived at by consensus from a case conference approach involving teacher, Principal and guidance counselor.

Senior High School. In general, promotion from one class to the next shall be contingent upon the passing of all required subjects and the accumulation of 4 or 5 units of credit at each level.

Academic standards. Building Principals shall be responsible for ensuring that written standards for student progress at each grade level are available to parents and others upon request. Such academic standards are to be forwarded to the Superintendent of Schools each year.

Retention. A decision to retain shall be arrived at by consensus from a case conference approach involving the teacher, Building Principal, school psychologist, and parent/guardian. In any situation whereby the building team is considering retention for a student, the Superintendent of Schools must be notified and consulted. Factors to be considered include teacher recommendation; classroom achievement and attitude; standardized test scores; social and emotional development; results of the family conference; and, for identified students, recommendations by the Committee on Special Education. Standardized test scores will not be the sole or primary factor in the decision. If a consensus cannot be reached, the decision of the Building Principal in consultation with the Superintendent of Schools shall be final.

No student will be retained without an appropriate educational plan defining what will occur that is instructionally different for the student. Once the educational plan has been implemented, the student will be monitored regularly. The educational plan will be revised until the student demonstrates acceptable performance.

In order to inform parents/guardians about the district's approach to promotion and retention, this policy will be posted on the district website and included in student and/or parent handbooks.

4770 GRADUATION REQUIREMENTS

The Board of Education will determine the graduation requirements of the district in accordance with the Regulations of the Commissioner of Education. The Superintendent of Schools shall develop regulations setting forth the diploma requirements. Such regulations shall be approved by the Board and shall be provided to students and parents each year once a student reaches the eighth grade.

Participation in the graduation exercises will be predicated on satisfactory completion of all graduation requirements.

TEACHING ABOUT CONTROVERSIAL ISSUES

The Board of Education recognizes their broad responsibility for providing for a course of study in the schools that is appropriate to the age and ability of the students in the district. The Board also recognizes that within the broad parameters of curriculum, a teacher must be free to engage students in classroom discussion and debate in order to stimulate the exchange of ideas and critical thinking.

Controversial issues may arise that deal with matters about which there are varied levels of opposing views, biases emotions, and/or conflict. The Board wishes to ensure that controversial issues are presented in a manner that preserve the academic integrity of the district and reflects community values. Therefore, the Board establishes the following guidelines for teachers to follow when presenting controversial issues in the classroom:

1. In the classroom, matters of a controversial nature shall be handled as they arise in the normal course of instruction and not introduced for their own sake. Such issues shall be neither sought nor avoided.
2. When presenting various positions on a controversial issue, the teacher shall take care to balance major views and to assure that as many sides of the issues as possible are presented in a fair manner, with no position being espoused by the teacher as the only one acceptable.
3. When materials dealing with controversial topics are to be used, assigned or recommended, such materials must:
 - have educational value and be relevant to the curriculum;
 - be appropriate to the age and maturity level of the students; and
 - not adversely affect the attainment of the district's instructional goals or result in substantial disruption of the normal operation of the classroom.

Prior to presenting controversial materials to their students all teachers shall:

1. review carefully any and all material to be distributed to students with the understanding that they will be responsible and accountable for all materials distributed; and
2. notify the **Department Chairperson** in advance of the dissemination of any material likely to be considered controversial by staff, class or community.

The Chairperson will review the materials pursuant to the guidelines above.

ANIMALS IN THE SCHOOLS

The Board of Education recognizes that the study of living things is essential to effective instruction in the life sciences. The primary goals for demonstrations and investigations involving animals are to achieve an interest in and an understanding of the life processes, to demonstrate biological principles, and to teach proper care and handling of animals. Therefore, the Board requires that any such instructional activities, investigations, and projects be well-planned and adequately supervised, and be conducted with a respect for life and an appreciation of the health and safety of both animals and students.

The Board also recognizes that some students have a moral or religious objection to dissection or otherwise harming or destroying animals. In accordance with state law, students shall have the right to opt out of dissection activities, provided that the student performs an alternative project approved by the student's teacher. The objection must be substantiated in writing by the student's parent or guardian.

At the start of the school year, teachers of courses that include animal dissection shall give notice to the students in those classes of their opt-out rights and responsibilities under the law and this policy. Such notice shall be shared with parents of those students, and also be available upon request.
