FISCAL MANAGEMENT GOALS

The Board of Education recognizes excellent fiscal planning as a key factor in attaining the district's educational goals and priorities. The Board seeks to engage in thorough advance planning of multi-year budgets, associated tax levies and revenues, fund balance and reserves, and to devise expenditures which achieve the greatest educational returns given the district's available resources. The Assistant Superintendent for Business will prepare a report on fund balance and reserves to the Board at least annually in August.

The Board's establishment of sound fiscal management policies is based on the following tenets.

1. All laws and regulations governing the use of public funds shall be strictly adhered to.
2. All district monies shall be expended in an efficient and judicious manner, to bring the greatest benefit to the district.
3. Funds for which the district has no immediate need shall be legally invested where they can bring the greatest return.
4. Restricted funds ("Reserves") will be established and maintained at optimal levels to provide stable and sustainable future budgets and tax levies. To the extent possible, undesignated reserves (the amounts available to meet operating contingencies) will be maintained at 5% of annual revenues or higher (recommended) or the maximum permitted by N.Y.S. law and/or Commissioner's regulation.
5. Pursuant to GASB 54, said fund balance will be reported in the following classifications, where applicable:
 - Non-spendable – amounts that cannot be spent because they are in a non-spendable form (e.g. inventory) or legally or contractually required to be maintained intact.
 - Restricted – amounts limited by external parties or legislation (e.g. reserves, grants or donations)
 - Committed – amounts limited by Board policy.
 - Assigned – amounts that are intended for a particular purpose.
 - Unassigned – amounts available for consumption or not restricted in any manner.

Fund balance will be monitored and maintained at optimal levels to meet current and future cash flow and contingency planning needs. To the extent possible, the General Fund total fund balance (this equals restricted, committed, assigned, and unassigned fund balance) will be maintained at 15% to 20% or more of total revenues (recommended) or the maximum permitted by N.Y.S law and/or Commissioner's regulation.

6. The unassigned, unexpended surplus (“unappropriated fund balance”) shall be maintained at the maximum legally permitted level, and the assigned fund balance will be at the lowest sustainable level.
7. All receipts and expenditures shall be recorded fully and in the proper manner.
8. The district shall seek and receive all state and federal funds for which it qualifies.
9. All funds, including cash in buildings, extra-classroom account funds, gifts, and bequests shall be provided maximum protection from misappropriation.
10. A formal process shall be developed linking fiscal resources and program priorities to the budget.
11. The budget shall reflect the views of the school community, which may include administrators, teachers, students, and taxpayers, in translating the educational needs and aspirations of the community in a composite financial plan.
12. To the extent possible, program evaluation shall be used to assess the effectiveness of all educational programs provided to district students, and future appropriations shall be adjusted accordingly.
13. Debt planning and multi-year capital planning will be incorporated into the budget planning process. To the extent possible, debt service expenditures will be maintained at 2.5% to 4% of total operating expenditures (recommended), or the maximum permitted by N.Y.S law and/or Commissioner’s regulation.

Demand Deposit Accounts in a bank or trust company located in and authorized to do business in New York State; Obligations of New York State; Obligations of the United States Government (U.S. Treasury Bills and Notes);

- B. All funds may be invested in Revenue Anticipation Notes or Tax Anticipation Notes of other school districts and municipalities, with the approval of the State Comptroller.
- C. Only Reserve Funds established by sections 6-d, 6-j, 6-l, 6-m and 6-n of General Municipal Law may be invested in obligations of the school district.

Conditions

All investments made pursuant to this investment policy will comply with the following conditions:

- A. Collateral

In accordance with provisions of GML Section 10, all deposits including certificates of deposit and special time deposits, in excess of the amount insured under the provisions of the Federal Deposit Insurance Act shall be secured:

1. By a pledge of “eligible securities” with an aggregate “market value” as provided by GML Section 10, at least equal to the aggregate amount of deposits from the categories designated below.
 - a. Obligations issued, or fully insured or guaranteed as to the payment of principal and interest, by the United States of America, an agency thereof or a United States government sponsored corporation.
 - b. Obligations partially insured or guaranteed by any agency of the United States of America, as a proportion of the market value of the obligation that represents the amount of the insurance or guaranty.
 - c. Obligations issued or fully insured or guaranteed by the State of New York may be accepted as security for deposit of public money, or
2. By an eligible “irrevocable letter of credit” issued by a qualified bank (other than the bank with which the money is being deposited or invested), payable to the Wantagh Union Free School District, for a term not to exceed ninety (90) days with an aggregate value equal to 140% of the aggregate amount of deposits and the agreed upon interest, if any. A qualified bank is one whose commercial paper and other unsecured short-term debt obligations are rated in one of the three highest rating categories (based upon the credit of such bank or holding company) by at least one nationally recognized statistical rating organization or by a bank (other than the bank with which the money is being deposited or invested) that is in compliance with applicable federal minimum risk-based capital requirements, or
3. By an eligible “surety bond” payable to the Wantagh Union Free School District as security for at least equal to 100% of the aggregate amount of deposits and the agreed upon interest, if any, executed by an insurance company authorized to do business in New York State, whose claims-paying ability is rated in the highest rating category by at least two nationally recognized statistical rating organizations.
4. Collateralization will be monitored no less frequently than on a weekly basis. Collateral will not be required with respect to the direct purchase of obligations of New York State, the United States and federal agencies, the principal and interest of which are guaranteed by the United States Government.

B. Delivery of Securities

1. Payment of funds may only be made upon receipt of collateral or other acceptable form of security, or upon the delivery of government obligations whether such obligations are purchased outright, or pursuant to a repurchase agreement. Written confirmation of delivery shall be obtained from the custodial bank.
2. Every Repurchase Agreement will make payment to the seller contingent upon the seller's delivery of obligations of the United States to the Custodial Bank designated by the school district, which shall not be the repurchase, or in the case of a book-entry transaction, when the obligations of the United States are credited to the Custodian's Federal Reserve account. The seller will not be entitled to substitute securities. Repurchase agreements shall be for periods of 30 days or less. The Custodial Bank shall confirm all transactions in writing to insure that the school district's ownership of the securities is properly reflected in the records of the Custodial Bank.

C. Written Contracts

1. Written contracts are required for certificates of deposit and custodial undertakings and Repurchase Agreements. With respect to the purchase of direct obligations of United States, New York State, or other governmental entities in which monies may be invested, the interests of the school district will be adequately protected by conditioning payment on the physical delivery of purchased securities to the school district or custodian, or in the case of book-entry transactions, on the crediting of purchased securities to the Custodian's Federal Reserve System account. All purchases will be confirmed promptly in writing to the school district.
2. The following written contracts are required:
 - a. Written agreements will be required for the purchase of all certificates of deposit.
 - b. A written contract will be required with the Custodial Bank(s).
 - c. Written contracts shall be required for all Repurchase Agreements. Only credit-worthy banks and primary reporting dealers shall be qualified to enter into a Repurchase Agreement with the school district.

The written contract will stipulate that only obligations of the United States, New York State, or other governmental entities may be purchased and that the school district shall make payment upon delivery of the securities or the appropriate book-entry of the purchased securities. No specific repurchase agreement will be entered into unless a master repurchase agreement has been executed between the school district and the trading partners. While the term of the master repurchase agreement may be for a reasonable length of time, a specific repurchase agreement will not exceed thirty (30) days.

D. Designation of Custodial Bank

1. The Board will designate a commercial bank or trust company authorized to do business in the State of New York to act as Custodial Bank of the school district's investments. However, securities may not be purchased through a Repurchase Agreement with the Custodial Bank.
2. When purchasing eligible securities, the seller will be required to transfer the securities to the district's Custodial Bank.

E. Selection of Financial Institutions

1. The Treasurer will periodically monitor, to the extent practical but not less than annually, the financial strength, credit-worthiness, experience, size and any other criteria of importance to the district, of all institutions and trading partners through which the district's investments are made.
2. Investments in time deposits and certificates of deposit are to be made only with commercial banks or trust companies, as permitted by law.

F. Operations, Audit, and Reporting

1. The Treasurer or designee will authorize the purchase and sale of all securities and execute contracts for investments and deposits on behalf of the school district. Oral directions concerning the purchase or sale of securities will be confirmed in writing. The school district will pay for purchased securities upon the simultaneous delivery or book-entry thereof.

2. The school district will encourage the purchase and sale of securities through a competitive process involving telephone solicitation for at least three quotations.
3. The independent auditors will audit the investment proceeds of the school district for compliance with the provisions of this Investment Regulation.

6240-R

4. Monthly investment reports will be furnished to the Board of Education.

FUND BALANCE POLICY

The Governmental Accounting Standards Board (GASB) has issued Statement No. 54, *Fund Balance reporting and Governmental Fund Type Definitions* (GASB 54). The objective of this Statement 54 is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied.

Fund Balance Classifications (pursuant to GASB Statement 54)

Fund balance amounts will be reported by the District according to the following classifications:

Nonspendable - consists of assets that are inherently nonspendable in the current period either because of their form or because they must be maintained intact, including prepaid items, inventories, long-term portions of loans receivable, financial assets held for resale, and principal of endowments.

Restricted - consists of amounts that are subject to externally enforceable legal purpose restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments; or through constitutional provisions or enabling legislation. Because the State regulates the establishment, funding and use of school district reserves, generally, reserves will be classified as restricted fund balance.

Committed - consists of amounts that are subject to a purpose constraint imposed by a formal action of the government's highest level of decision-making authority before the end of the fiscal year, and that require the same level of formal action to remove the constraint. The New York State Office of the State Comptroller at the present time believes that in New York State school districts will not have any committed fund balance.

Assigned - consists of amounts that are subject to a purpose constraint that represents an intended use established by the board or by their designated official. The purpose of the assignment must be narrower than the purpose of the general fund, and in funds other

than the general fund, assigned fund balance represents the residual amount of fund balance. Assigned Fund Balance generally includes encumbrances and appropriated fund balance.

Unassigned - represents the residual classification for the government's general fund, and could report a surplus or deficit. In funds other than the general fund, the unassigned classification should be used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

General Policy

Fund balance measures the net financial resources available to finance expenditures within current or future periods. The district's general fund unassigned fund balance will be maintained at a level up to the maximum legal limit in order to provide the district with financial stability and a margin of safety to fund unanticipated contingent expenditures that may occur unexpectedly during the fiscal year. The general fund unassigned fund balance used for these purposes may only be appropriated by resolution of the Board of Education unless voter approval is required.

Any portion of fund balance may be applied or transferred for a specific purpose either by voter approval if required by law or by formal action of the Board of Education if voter approval is not required. Amendments or modification to the applied or transferred fund balance must also be approved by formal action of the Board of Education.

The Board of Education shall delegate the authority to assign fund balance, for encumbrance purposes, to the person(s) to whom it has delegated the authority to sign purchase orders. In circumstances where an expenditure is incurred for a purpose for which amounts are available in multiple fund balance classifications (e.g., expenditures related to reserves) the Board will assess the current financial condition of the district and then determine the order of application of expenditures to which fund balance classification will be charged.

He or she should maintain a log of checks signed and should verify the sequence of check numbers that are used. Accounts payable checks in excess of \$10,000 require dual signatures by authorized signers. The signing of blank checks is expressly forbidden.

As required by law, the school district shall obtain an annual audit of its records by an independent certified public accountant or an independent public accountant. The report of such annual external audit shall be presented to the Board of Education by such accountant.

The district shall, within 90 days of the receipt of such report or letter, prepare a corrective action plan in response to any findings contained in the annual external audit report or management letter, or any final audit report issued by the state comptroller. This corrective action plan shall be presented to the Board for review. To the extent practicable, implementation of such corrective action plan shall begin no later than the end of the next fiscal year.

The district shall use a competitive request for proposals (RFP) process when contracting for such annual audit. In addition, pursuant to law, no external audit engagement shall be for a term longer than five consecutive years; provided, however, that the district, in its discretion, may permit an independent certified public accountant or an independent public accountant engaged under an existing contract for such services to submit a proposal in response to an RFP or to be awarded a contract to provide such services under a RFP process.

EXTERNAL AUDIT GUIDANCE FOR SCHOOL DISTRICT OFFICIALS

The Five Point Plan for increasing school district financial oversight and accountability includes a provision to enhance the effectiveness of external audits by:

- Requiring CPAs to present audit results directly to school boards.
- Require a formal school district response to the management letter and a corrective action plan for any reportable conditions.
- Provide guidance on internal controls and audit testing, including specific types of testing and suggested level of detail.

The following list provides some specific examples of the audit guidance that will be helpful to school districts in working with their CPAs in order to enhance the effectiveness of the audit process and help assure school district officials that their annual independent audit is providing effective accountability. The list may be helpful to school board members and district officials as they participate in the annual financial audit process.

► Prudent use of taxpayer dollars

Goods and services are procured in a manner so as to assure the prudent and economical use of public moneys in the best interest of the taxpayers.

- A comprehensive test of cash disbursements that includes sample testing of procurement for compliance with laws, rules, regulations and policies/procedures for competitive purchasing, bidding or use of state or county contracts. Controls designed to prevent purchasing from businesses owned or controlled by officers, employees or other related parties should also be reviewed and tested. Tests of transactions are expected to include verification that goods or services were properly authorized, received by the district, charged to the proper appropriation accounts and audited prior to payment. This testing should include review of requisitions, purchase orders, receiving slips, vouchers, invoices, cancelled checks, and postings to the accounting records.
- A review of the district's policies and procedures for procuring goods and services that are not subject to competitive bidding requirements, including sample testing of cash disbursements to ensure the district complied with its procurement policies and acquired goods and services of maximum quality at the lowest possible cost under the circumstances. This test will also help assure the district's procedures guard against favoritism, fraud and corruption.

- Expense reimbursements or other payments to board members, administrators and other district personnel should be tested to verify compliance with board policies, reasonableness, appropriateness of payment, and documentation of expenses.
- Expenditures for meals and refreshments at meetings, cell phones and purchases with credit cards should be reviewed for reasonableness.
- A comprehensive test of payroll disbursements that includes verification of the existence of the employee, authorization, time worked, accuracy of rates, overtime payments and distributions to appropriate expenditure categories by tracing from time records through the payroll records to the cancelled check. Testing of accounting records should also be performed such as payroll summaries and payments of taxes and other withholdings.

► **Sound internal control structure**

A sound internal control structure is in place and internal controls are appropriately designed and operating effectively.

- A sufficient understanding of the school district's system of internal controls including the district's control environment, control activities, system for risk assessment, information and communication, and monitoring. This audit procedure should also include a documented understanding of controls over the school district's computer systems that are significant to audit objectives.
- Testing of controls deemed significant to the audit's objectives. For example: observing district personnel actually performing the control procedures in the regular course of operations; examining documents and looking for evidence of approvals, sign-offs, etc.; and replicating a control procedure to test whether it was applied correctly.
- Analytical procedures should be performed to identify unusual trends, activities or transactions. Revenue and expenditure trends should be reviewed over a number of years, and significant budget variances investigated. Control and detail records for budget, revenue, payroll, procurement, capital project and capital asset activities should be scanned for questionable trends or entries, and unusual items investigated.
- A sample of budget amendments should be checked to verify they were completed before appropriations were over-expended to verify budget control over district expenditures.
- Documentation of how the evaluation of the district's control structure and the results of the analytical reviews will affect the audit approach for testing of controls and tests of transactions. This documentation should include the auditor's

consideration of the risk of fraud, illegal acts, abuse, or violations of contract/grant provisions, and the impact these risks will have on audit testing.

6660-E

► **Assets are safeguarded**

School district assets are safeguarded against loss, waste and abuse.

- Verification that a current asset inventory system is in place.
- Physical inspection of assets and personal property items, especially those items most susceptible to theft and abuse (e.g. computers, televisions, video equipment).
- Verification of adequacy of insurance coverage for assets and for employees with authorized access to those assets.

PURCHASING

The Board of Education views purchasing as serving the educational program by providing necessary supplies, equipment and related services. Purchasing will be centralized in the business office under the general supervision of the Purchasing Agent designated by the Board.

It is the goal of the Board to purchase competitively, without prejudice or favoritism, and to seek the maximum value for every dollar expended. Competitive bids or quotations shall be solicited in connection with purchases pursuant to law. The General Municipal Law requires that purchase contracts for materials, equipment and supplies involving an estimated annual expenditure of more than \$20,000 and public work contracts involving an expenditure of more than \$35,000 will be awarded only after responsible bids have been received in response to a public advertisement soliciting formal bids. Similar procurements to be made in a fiscal year will be grouped together for the purpose of determining whether a particular item must be bid.

Purchase contracts and public works contracts subject to competitive bidding will be awarded to the lowest responsible bidder, however, the Board authorizes that purchase contracts may be awarded on the basis of best value, as defined in State Finance Law §163.

In addition, the Board authorizes the receipt of sealed bids for purchase contracts in electronic format, pursuant to the provisions of General Municipal Law §103(1) which addresses proper documentation, authentication, security, and confidentiality of electronic bids.

The district shall comply with the requirements of General Municipal Law §103-g, which prohibits, with few exceptions, competitive bidding contracts with entities that invest significantly in the Iranian energy sector, as outlined in the accompanying regulation.

Goods and services which are not required by law to be procured by the district through competitive bidding will be procured in a manner so as to ensure the prudent and economical use of public monies, in the best interests of the taxpayers, to facilitate the acquisition of goods and services of maximum quality at the lowest possible cost under

the circumstances, and to guard against favoritism, improvidence, extravagance, fraud and corruption.

Alternative proposals or quotations will be secured by requests for proposals, written or verbal quotations or any other appropriate method of procurement, except as permitted by State law for procurements:

1. under a county contract;
2. under a State contract;
3. under a federal contract;
4. under a contract of another political subdivision;
5. of articles manufactured in State correctional institutions; or
6. from agencies for the blind and severely disabled.

The district's purchasing activity will strive to meet the following objectives:

1. to effectively supply all administrative units in the school system with needed materials, supplies, and contracted services;
2. to obtain materials, supplies and contracted services at the lowest prices possible consistent with the quality and standards needed as determined by the Purchasing Agent in cooperation with the requisitioning authority. The educational welfare of the students is the foremost consideration in making any purchase;
3. to ensure that all purchases fall within the framework of budgetary limitations and that they are consistent with the educational goals and programs of the district;
4. to maintain an appropriate and comprehensive accounting and reporting system to record and document all purchasing transactions; and
5. to ensure, through the use of proper internal controls, that loss and/or diversion of district property is prevented.

Opportunities shall be provided to all responsible suppliers to do business with the school district. Suppliers whose place of business is situated within the district may be given preferential consideration only when bids or quotations on an item or service are identical as to price, quality and other factors. Purchases will be made through available cooperative BOCES bids, state contracts of the Office of General Services or county contracts whenever such purchases are in the best interests of the district. In addition, the district may make purchases from correctional institutions and severely disabled persons through charitable or non-profit-making agencies, as provided by law.

The district will provide justification and documentation of any contract awarded to an offeror other than the lowest responsible dollar offeror, setting forth the reasons why such award is in the best interests of the district and otherwise furthers the purposes of section 104-b of the General Municipal Law.

The Purchasing Agent will not be required to secure alternative proposals or quotations for:

1. emergencies where time is a critical factor;
2. procurements for which there is no possibility of competition (sole source items); or
3. very small procurements when solicitations or competition would not be cost effective.

The Superintendent of Schools, with the assistance of the Purchasing Agent, shall be responsible for the establishment and implementation of the procedures and standard forms for use in all purchasing and related activities in the district. Such procedures shall comply with all applicable laws and regulations of the state and the Commissioner of Education.

No Board member, officer or employee of the school district shall have an interest in any contract entered into by the Board or the district, as provided in Article 18 of the General Municipal Law.

Comments will be solicited from those administrators involved in the procurement process before enactment of the district's policies regarding purchasing and from time to time thereafter. The policies must then be adopted by Board resolution. All district policies regarding the procurement processes will be reviewed by the Board at least annually.

The unintentional failure to fully comply with the provisions of section 104-b of the General Municipal Law or the district's policies regarding procurement will not be grounds to void action taken nor give rise to a cause of action against the district or any officer or employee of the district.

PURCHASING REGULATION

The following sets forth the procedures for the procurement of goods and services by the district:

I. Definitions

Best value: optimizing quality, cost and efficiency. The basis for best value shall reflect, whenever possible, objective and quantifiable analysis, and may also take into consideration small businesses or certified minority- or women-owned businesses as defined in State Finance Law §163.

Purchase Contract: a contract involving the acquisition of commodities, materials, supplies, services or equipment

Public Work Contract: a contract involving labor or both materials and labor for a project such as construction

II. General Municipal Law

The General Municipal Law requires that purchase contracts for services, materials, equipment and supplies involving an estimated annual expenditure exceeding \$20,000 and public work contracts involving an expenditure of more than \$35,000 will be awarded only after responsible bids have been received in response to a public advertisement soliciting formal bids. Similar procurements to be made in a fiscal year will be grouped together for the purpose of determining whether a particular item must be bid.

III. Competitive Bidding Required

A. Method of Determining Whether Procurement is Subject to Competitive Bidding

1. The district will first determine if the proposed procurement is a purchase contract or a contract for public work.
2. If the procurement is either a purchase contract or a contract for public work, the district will then determine whether the amount of the procurement is above the applicable monetary threshold as set forth above.

3. The district will also determine whether any exceptions to the competitive bidding requirements (as set forth below) exist.

6700-R

4. All advertised bids shall include the following statement required by General Municipal Law 103-g: “By submission of this bid, each bidder and each person signing on behalf of any bidder certifies, and in the case of a joint bid each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each bidder is not on the list created pursuant to paragraph (b) of subdivision 3 of section 165-a of the state finance law.”

B. Contract Combining Professional Services and Purchase

In the event that a contract combines the provision of professional services and a purchase, the district, in determining the appropriate monetary threshold criteria to apply to the contract, will determine whether the professional service or the purchase is the predominant part of the transaction.

C. Opening and Recording Bids; Awarding Contracts

The Purchasing Agent will be authorized to open and record bids. Contracts will be awarded to the lowest responsible bidder or a purchase contract bid of best value (as recommended by the Purchasing Agent), who has furnished the required security after responding to an advertisement for sealed bids.

In order to be considered a responsible bidder, entities must certify that they are not on the list created and maintained by the State Office of General Services cataloging significant investment in the Iranian energy sector. Such statement may be submitted electronically pursuant to General Municipal Law §103(1).

Entities that cannot make this certification may only be awarded the bid if:

1. The entity’s investment activities in Iran were made before April 12, 2012; the investment activities in Iran have not been expanded or renewed after that date; and the entity has adopted, publicized, and is implementing a formal plan to cease the investment activities in Iran and to refrain from engaging in any new investments in Iran; or

2. The district makes a determination, in writing that the goods or services are necessary for the district to perform its functions and that, absent such an exemption, the district would be unable to obtain the goods or services for which the contract is offered.

D. Documentation of Competitive Bids

The district will maintain proper written documentation which will set forth the method in which it determined whether the procurement is a purchase or a public work contract.

E. Purchase of Instructional Materials

In accordance with Education Law the district shall give a preference in the purchase of instructional materials to vendors who agree to provide materials in alternative formats (i.e., any medium or format for the presentation of instructional materials, other than a traditional print textbook, that is needed as a accommodation for a disabled student enrolled in the district, including but not limited to Braille, large print, open and closed captioned, audio or an electronic file in an approved format).

The district will establish and follow a plan to ensure that every student with a disability who needs his or her instructional materials in an alternative format will receive those materials at the same time that they are available to non-disabled students.

F. Leases of Personal Property

In addition to the above-mentioned competitive bidding requirements, section 1725 of the Education Law requires that the district will be subject to competitive bidding requirements for purchase contracts when it enters into a lease of personal property.

Documentation: The district will maintain written documentation such as quotes, cost-benefit analysis of leasing versus purchasing, etc.

G. Environmentally-Sensitive Cleaning and Maintenance Products

The district will purchase and utilize environmentally sensitive cleaning and maintenance products whenever feasible. The purchasing agent will consult with the Green Guidelines provided by the Office of General Services.

Any legal issues regarding the applicability of competitive bidding requirements will be presented to the school attorney for review.

IV. Exceptions to Competitive Bidding Requirements

The district will not be subject to competitive bidding requirements when the

Board of Education, in its discretion, determines that one of the following situations exists:

1. emergency situations where:
 - a. the situation arises out of an accident or unforeseen occurrence or condition;
 - b. a district building, property, or the life, health, or safety of an individual on district property is affected; or
 - c. the situation requires immediate action which cannot await competitive bidding.

However, when the Board passes a resolution that an emergency situation exists, the district will make purchases at the lowest possible costs, seeking competition by informal solicitation of quotes or otherwise, to the extent practicable under the circumstances.

Documentation: The district will maintain records of verbal (or written) quotes, as appropriate;

2. when the district purchases surplus or second-hand supplies, materials or equipment from the federal or state governments or from any other political subdivision or public benefit corporation within the state.

Documentation: The district will maintain market price comparisons (verbal or written quotes) and the name of the government entity;

6700-R

3. when the Board separately purchases eggs, livestock, fish and dairy products (other than milk), juice, grains and species of fresh fruits and vegetables directly from producers or growers. The amount expended in any fiscal year by the district may not exceed an amount equal to fifteen cents multiplied by the number of days in the school year multiplied by the total enrollment of the district.

Documentation: The district will maintain documentation consistent with sections 114.3 of the Regulations of the Commissioner of Education;

4. when the Board separately purchases milk directly from licensed milk processors employing less than forty (40) people. The amount expended in any fiscal year by the district may not exceed an amount equal to twenty-five cents multiplied by the number of days in the school year multiplied by the total enrollment of the district or exceed the current market price.

Documentation: The district will maintain documentation consistent with section 114.4 of the Regulations of the Commissioner of Education;

5. when the district purchases goods, supplies and services from municipal hospitals under joint contracts and arrangements entered into pursuant to section 2803-a of the Public Health Law.

Documentation: The district will maintain the legal authorization, Board authorization and market price comparisons; or

6. when there is only one possible source from which to procure goods or services required in the public interest.

Documentation: The district will maintain written documentation of the unique benefits of the item or service purchased as compared to other items or services available in the marketplace; that no other item or service provides substantially equivalent or similar benefits; and that, considering the benefits received, the cost of the item or service is reasonable, when compared to conventional methods. In addition, the documentation will provide that there is no possibility of competition for the procurement of the goods.

7. when the district purchases professional services that require special skill or training, such as but not limited to, audit, medical, legal or insurance services, or property appraisals.

Documentation: The district will keep proper documentation in accordance with policy 6741.

V. Quotes When Competitive Bidding Not Required

Goods and services which are not required by law to be procured by the district through competitive bidding will be procured in a manner so as to ensure the prudent and economical use of public monies in the best interests of the taxpayers. Alternative proposals or quotations will be secured by requests for proposals, written or verbal quotations or any other appropriate method of procurement, as set forth below.

All purchases shall be made through the Purchasing Agent.

The Purchasing Agent is authorized to issue purchase orders without prior approval of the Board when formal bidding procedures are not required by law and budget appropriations are adequate to cover such obligations.

The Purchasing Agent shall be responsible for preparing all bid specifications and a statement of general bidding conditions to be included in every notice or invitation to bid. PURCHASING PROCEDURES

Requesting Goods and Services (Purchase Orders)

Purchase orders for budget items shall originate from the key personnel directly responsible for their use. The Purchasing Agent shall arrange appropriate administrative reviewing channels whereby purchase orders will be examined and approved, or disapproved, for purchasing.

The Purchasing Agent shall receive and process purchase orders in a manner most beneficial to the overall purposes of the school.

Describing Goods and Services (Specifications)

Product specifications will be written in a manner that will minimize vendor misinterpretation and yet be in the vernacular of the trade.

Specifications will be sufficiently broad to permit competition while retaining the desired level of quality. In all cases, the dominant factor should be quality.

Expenditures

It is the policy of the Board of Education that the administration strictly observes the letter and the spirit of all laws and regulations relating to purchases by the district and to the control of its finances and property.

Within the framework of applicable laws and regulation, purchases and use of materials and manpower shall be accomplished in accordance with good business practices with the primary purpose of serving the program of instruction.

Purchasing Procedures

The procurement function is one of the major business responsibilities of the Board of Education.

The mechanical function of procurement may be delegated. However, under law, the Board has the sole authority and responsibility for all purchase contracts of the district.

The duties of purchasing shall be centralized under the control of the Assistant Superintendent for Business or his/her designee, who shall serve as purchasing agent. The Assistant Superintendent for Business or designee shall be familiar with and perform all activities within the limitations prescribed by law, legal opinions, and in accordance with Board policies.

Four fundamental functions of purchasing are:

1. to buy the proper product for the purpose required;
2. to have the product available when needed;
3. to buy the proper amount of the product; and
4. to pay the proper price.

Every transaction between a buyer and seller involving the transfer of property shall be by purchase order or formal contract.

Purchase orders and other obligations shall be signed by the Purchasing Agent or designee.

Specifications governing materials are a joint responsibility of the educational and finance offices.

Only through the use of efficient purchasing procedures can the school district ensure that needed goods and services are acquired in the most economical manner. The Board directs the Superintendent of Schools and the Assistant Superintendent for Business to develop administrative regulations on how purchasing is to be done in the district.

The purchasing is to be done by the purchasing agent on an official purchase order blank.

The purchasing agent is authorized to issue purchase orders without prior approval of the Board when formal bidding procedures are not required by law and budget appropriations are adequate to cover such obligations.

CONTRACTING FOR PROFESSIONAL SERVICES

The Board of Education will make certain that professional services are secured in a manner that protects the integrity of the process, ensures the prudent use of taxpayer dollars and provides a high quality standard of service, in accordance with law and regulation. Professional services are defined as services requiring special skill and/or training, such as legal services, medical services, auditing services, property appraisals or insurance.

Purchasing professional services does not require competitive bidding. The Board directs the Assistant Superintendent for Business to take measures to ensure that a highly qualified professional is secured through the prudent and economical use of public money, which may include:

1. reviewing trade journals;
2. checking professional listings; and/or
3. inquiring of other districts or other appropriate sources.

The designated district staff will prepare a comprehensive written request for proposals (RFP), which will contain critical details of the services sought. The RFP will specify that the proposal include the structure of the relationship between the district and the provider, including, if applicable, the terms of the retainer, the hourly fees and other associated costs.

In reviewing the RFPs, the district will consider, at a minimum, the following factors:

1. the suitability of the individual/firm for the district's needs;
2. the special knowledge or expertise of the individual/firm;
3. the credentials and applicable certifications of the individual/firm;
4. the quality of the service provided by the individual/firm;
5. cost;
6. the staffing available from the firm or the time available from the individual;

The district will periodically, but not less frequently than every five (5) years, issue professional service RFPs and may conduct interviews as part of the RFP process. The written proposals submitted by applicants shall be maintained for at least six years.

6741

The Superintendent, after a thorough review of the proposals, in consultation with the Assistant Superintendent for Business will recommend the professional service provider best suited to the district to the Board of Education for its approval.

Regardless of when during the year the professional service provider was engaged by the Board, at the annual organizational meeting the Board will appoint the attorney, physician, external auditor, or other professional, as applicable. Professional service providers selected and appointed in this manner will not be considered employees of the district.

The Superintendent is charged with developing administrative procedures to implement this policy.

PAYROLL PROCEDURES

The Board of Education recognizes the importance of the payroll function to the effective administration of the district. The Board is also aware that this is an area at risk of fraud and abuse. The Board directs the Superintendent to establish procedures to reasonably ensure the accuracy and integrity of the payroll system.

A duly certified payroll is one that has been examined and approved by the Superintendent of Schools, or in his/her absence, the Assistant Superintendent for Business. It shall be the responsibility of the Assistant Superintendent for Business and his/her staff to prepare all payrolls.

The Superintendent will initiate a periodic test to verify the accuracy and appropriateness of the district payroll. This test shall be conducted by the Assistant Superintendent for Business. The test shall confirm that individuals listed on the payroll are currently employed by the district, and that the title, hours worked, and wages listed are correct. The test shall also confirm that individuals listed as employees are employees and not independent contractors. (The procedure for determining employment status is outlined in policy 9500, Compensation and Benefits.) The Superintendent will evaluate the results of the test and determine if improvements need to be made.

Payroll procedures will also be reviewed periodically by the internal auditor. The internal auditor will report findings and recommendations to the Board. It is the intention of the Board to take reasonable and necessary steps to safeguard the district's payroll.
